

ADVANCE WITH UNITEDHEALTHCARE® CARE BUNDLES PROGRAM

Care Bundles Opportunity

UnitedHealthcare has a long history of supporting organizations and physicians as they transition from fee-for-service into value-based payment models. On January 1, 2020 you'll be able to participate in the UnitedHealthcare Care Bundles Program that supports both Centers for Medicare & Medicaid Services (CMS) Bundled Payment for Care Improvement Advanced (BPCI-A) Medicare Fee for Service (FFS) care providers and patients and UnitedHealthcare Medicare Advantage care providers and patients.

Our Model Your Success

Our best-in-class bundled payment solution supports your practice with **people, process** and **technology** wrapped into one comprehensive, easy-to-use solution on one platform.

CARE MANAGEMENT

Solutions to help patients receive a high quality care experience from pre-operative education thru post-acute care

TECHNOLOGY

Improved pre- and post-operative interactions with your patients by connecting them with their care teams through an automated, personalized digital experience

DATA & ANALYTICS

Combined predictive analytics, clinical data and claims data to help you understand your risk and see how the care bundles are performing

PAYMENT ADMINISTRATION

Financial performance reporting, risk delegation services and reconciliation services

BUSINESS ADMINISTRATION

Combined industry knowledge and data that provides you with improvement strategies and approaches to help you transition to value-based care

We Offer . . .

Unique Capabilities

- Data, analytics and reporting to manage quality and risk
- Suite of tools to coordinate and optimize care and maintain fluid communication with patients

Reliability/Scale

- UnitedHealthcare and Optum data assets, in addition to CMS', to optimize care bundles selection
- Decades of experience with bundled payments, value-based care and risk management

Physician Alignment

- New provider groups have the ability to optimize alignment and economics among participating providers

Long-Term Value Proposition

- The opportunity for providers to realize value of care bundle payments beyond CMS BPCI-A and UnitedHealthcare Medicare Advantage

How Can We Help You

- Our UnitedHealthcare Care Bundles Program allows you to participate in both CMS BPCI-A and UnitedHealthcare Medicare Advantage offerings.
- Through data-based performance improvement strategy consulting, we can identify savings opportunities while managing your risk.
- You can manage your value-based care models, care support services and payments on one platform.
