

Care provider billing guidelines for COVID-19 vaccines

UnitedHealthcare Community Plan of Arizona

We want to provide you instructions and billing guidelines from the Arizona Department of Health Services (ADHS) and Arizona Health Care Cost Containment System (AHCCCS) to administer approved COVID-19 vaccines.

Billing guidelines

- The state requires that care providers complete the ADHS Onboarding tool in order to get the COVID-19 vaccine through ADHS.
 - Start the onboarding process at redcap.link/onboard
 - Learn how to order, receive, store, administer, document and account for COVID-19 vaccines [here](#)
- Providers must be actively enrolled with AHCCCS in order to bill the vaccine administration fee for AHCCCS beneficiaries. Enroll with AHCCCS [here](#)
- All vaccine administration claims should be billed on a CMS-1500 claim form or submitted electronically using the 837P format
- If you are a Medicare Advantage contracted provider, **submit claims for the administration of COVID-19 vaccines to Original Medicare**, even if the member is enrolled in a UnitedHealthcare Dual Complete® program
- National Drug Code (NDC) numbers are **not** required
- Place of service (POS) should be the two-digit code where the vaccine was administered if administered in a skilled nursing facility for example, the POS would be 31 in Field 31

Initial vaccine codes

- Initial vaccine administration reimbursement will be \$16.94
