

Update on coverage for non-COVID-19 respiratory viral panel tests

Effective with dates of service starting June 13, 2021, UnitedHealthcare Community Plan will stop covering respiratory viral panel tests without specific SARS-CoV-2 targets. We'll continue to cover respiratory viral panel tests that contain SARS-CoV-2 targets.

- Coverage will end for CPT® codes 87631, 87632 and 87633
- Coverage continues for CPT codes, including 87426, 87635, U0003, U0004 and other CPT codes listed in the [LDH COVID-19 Laboratory Testing fee schedule](#)

The coverage change aligns with the Louisiana Department of Health (LDH) [Health Plan Advisory \(HPA\) 20-6: Response to COVID-19](#).
