

Action required: Enroll with MassHealth today to keep billing privileges and avoid termination

Federal law now requires all managed care entity (MCE) network providers to enroll with MassHealth.

Action required

To fulfill these requirements, all health care professionals contracted with UnitedHealthcare Community Plan of Massachusetts must enroll with MassHealth within 120 days of this notification. This will prevent billing delays and termination from the network.

As a MCE network health care professional, you must now have 2 provider contracts in place:

1. A network provider contract with UnitedHealthcare Community Plan of Massachusetts

2. A provider contract with MassHealth

Enroll with MassHealth now.
