

Diabetic Testing Supplies

UnitedHealthcare Community Plan

UnitedHealthcare Community Plan is committed to providing clinically appropriate, cost-effective medical services and prescription drugs. To deliver on this commitment, we have engaged LifeScan and BD as our preferred manufacturers for diabetic testing supplies, such as diabetic blood glucose meters, test strips, insulin syringes and pen needles. UnitedHealthcare Community Plan members should use LifeScan and BD products for these supplies, whenever possible.

Covered Diabetic Supplies

What We're Asking You to Do

Please encourage your patients who are our members to use products listed in the table. We understand that not all products are suitable for all members. Therefore, if the preferred alternative testing supplies aren't appropriate for a particular member, the member can still get the non-preferred brand through a durable medical equipment (DME) care provider and you won't need to take any further action to keep that member on the non-preferred product.

We're Here to Help. If you have questions, please call Provider Services at the phone number listed on the member's ID card. Thank you.
