EVV Claim Units Matching Effective October 30, 2026 for In-home Respite Services in CLASS and DBMD Programs

Background:

Texas Health and Human Services Commission (HHSC) enabled Electronic Visit Verification (EVV) claims unit matching for in-home respite services in Community Living Assistance and Support Services (CLASS) and Deaf Blind with Multiple Disabilities (DBMD) programs effective Oct. 30, 2026.

Prior to Oct. 30, 2026, claims submitted for in-home respite services required that a matching EVV visit was accepted in the EVV Aggregator prior to submitting the claim but did not require the units on the EVV visit and the claim to match.

EVV claims, with dates of service of **Oct. 30** and after, that do not have an exact EVV visit units match for the services below, will be denied payment and receive an EVV claims match result EVV06 code.

Program	Service Group	Service Code	Bill Code
CLASS	2	11	G0100 – In-Home Respite - DSA
DBMD	16	11	G0100 – In-Home Respite

For questions about the changes, email HHSC EVV Operations.
