

UnitedHealthcare Medicare Advantage Referral-Required Plans - 2022

Members and PCPs working together to manage care

Some UnitedHealthcare® Medicare Advantage benefit plans require referrals for specialty care. These plans emphasize the role of the member's primary care provider (PCP). The PCP will manage referrals when a member seeks care from a network specialist or other health care professional.

The PCP will also determine the appropriate number of visits and the timing for the referral and can submit additional referrals if a referral expires.

We're here to help you.

You can find more information about these plans at UHCprovider.com/plans > choose your state > Medicare. If you have questions, please call provider services at **877-842-3210**, 8 a.m. – 8 p.m. ET, Monday – Friday. Thank you.
