The referral process is **distinct from prior authorization**.

- **Prior authorization** is required for specific procedures listed on the WellMed Prior Authorization List (PAL) and must be submitted via **ePRG**

Starting Jan. 1, 2026, specialists providing care to members enrolled in UnitedHealthcare Medicare Advantage HMO and HMO-POS plans are required to obtain a referral from the member's primary care physician (PCP) before rendering care in office or home settings.

PCPs:

- Referrals should be directed to the **specialist physician's name**
 - Nurse practitioners and physician assistants are not listed in the referral tool

Specialists:

- Must have a valid referral from the patient's PCP **before rendering services**
 - **Specialists** cannot refer to other specialists

A referral must be obtained for specialist visits for dates of service in 2026 even if the patient has an existing ongoing relationship with the specialist. Referrals obtained outside of the LeadingReach platform for 2025 dates of service will not carry over and apply to 2026 dates of service.

Referral requirements will NOT apply to services provided by a:

 - Approvals for these services should follow members' benefit plan guidelines
- Services obtained while accessing the health plan Medicare National Network or other out of service area provider which allows for services while traveling. Please refer to members **benefit plan regarding guidelines**

Specialists, claims could be denied due to missing referrals. Any denied claims will be considered provider liability. Members must not be balanced billed for services rendered without a valid referral.

Claims may be denied even when a valid referral is on file for the reasons including, but not limited to:
