

## Clinical Guidelines: Acute Myocardial Infarction without ST Elevation

### Description

This guideline outlines the recognition of potential risks, acute/long term management, procedural interventions, and pharmacotherapy of patients without ST elevation myocardial infarction (non-STEMI). Clinical guidelines are not used within UnitedHealthcare to decide benefit coverage. Benefit coverage decisions are based upon language in the member specific benefit plan document.

### To Review Guideline

Name of Guideline	Source/Location
2014 AHA/ACC Guideline for the Management of Patients with Non-ST-Elevation Acute Coronary Syndromes	American Heart Association/ American College of Cardiology: <a href="http://circ.ahajournals.org/content/130/25/e344.full.pdf">http://circ.ahajournals.org/content/130/25/e344.full.pdf</a>
