IMPORTANT NOTE ABOUT THIS REIMBURSEMENT POLICY

You are responsible for submission of accurate claims. This reimbursement policy is intended to ensure that you are reimbursed based on the code or codes that correctly describe the health care services provided. UnitedHealthcare reimbursement policies may use Current Procedural Terminology (CPT®), Centers for Medicare and Medicaid Services (CMS) or other coding guidelines. References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement.

This reimbursement policy applies to all health care services billed on CMS 1500 forms and, when specified, to those billed on UB04 forms. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design and other factors are considered in developing reimbursement policy.

This information is intended to serve only as a general reference resource regarding UnitedHealthcare’s reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Accordingly, UnitedHealthcare may use reasonable discretion in interpreting and applying this policy to health care services provided in a particular case. Further, the policy does not address all issues related to reimbursement for health care services provided to UnitedHealthcare enrollees. Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors may include, but are not limited to: legislative mandates, the physician or other provider contracts, the enrollee’s benefit coverage documents and/or other reimbursement, medical or drug policies. Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare due to programming or other constraints; however, UnitedHealthcare strives to minimize these variations.

UnitedHealthcare may modify this reimbursement policy at any time by publishing a new version of the policy on this Website. However, the information presented in this policy is accurate and current as of the date of publication.

  Basic Metabolic Panel (Calcium, ionized), 80047
  Basic Metabolic Panel (Calcium, total), 80048
  General Health Panel, 80050
  Electrolyte Panel, 80051
  Comprehensive Metabolic Panel, 80053
  Obstetric Panel, 80055
  Lipid Panel, 80061
  Renal Function Panel, 80069
  Acute Hepatitis Panel, 80074
  Hepatic Function Panel, 80076
  Obstetric Panel, 80081 (includes HIV testing)
This reimbursement policy applies to services reported using the 1500 Health Insurance Claim Form (a/k/a CMS-1500) or its electronic equivalent or its successor form. This policy applies to all products and all network and non-network physicians, and other qualified health care professionals, including, but not limited to, non-network authorized and percent of charge contract physicians and other qualified health care professionals. This policy also applies to laboratories, including, but not limited to, independent, reference and referring laboratories.

Duplicate laboratory code submissions by the same or multiple physicians or other qualified health care professionals, as well as certain laboratory services provided in a facility place of service, are also addressed in this policy.

Note this policy does not address reimbursement for all laboratory codes. Coding relationships for laboratory topics not included within this policy are administered through the UnitedHealthcare “Rebundling” and “CCI Editing” policies. All services described in this policy may be subject to additional UnitedHealthcare reimbursement policies including, but not limited to, the Rebundling and CCI Editing Policy, the CLIA Policy and the Professional/Technical Component Policy.

Reimbursement Guidelines

Place of Service

UnitedHealthcare uses the codes indicated in the Centers for Medicare and Medicaid Services (CMS) Place of Service (POS) Codes for Professional Claims Database to determine if laboratory services are reimbursable.

CMS Place of Service Database

The POS designation identifies the location where the laboratory service was provided, except in the case of an Independent or a Reference Laboratory. An Independent or Reference Laboratory must show the place where the sample was taken (if drawn in an Independent Lab or a Reference Lab, POS 81 is reported; if drawn in a hospital inpatient setting, the appropriate inpatient POS is reported). All entities billing for laboratory services should append identifying modifiers (e.g., 90), when appropriate, in accordance with correct coding. For example:
• If the physician bills for lab services performed in his/her office, the POS code for “Office” is reported.
• If the physician bills for a lab test furnished by another physician who maintains a lab in his/her office, the code for “Other Place of Service” is reported.
• If the physician bills for a lab service furnished by an independent lab, the code for “Independent Laboratory” is reported.
• If an independent lab bills, the place where the sample was taken is reported. An independent laboratory taking a sample in its laboratory shows “81” as place of service.
• If an independent laboratory bills for a test on a sample drawn on an inpatient or outpatient of a hospital, it reports the code for the inpatient (POS code 21) or outpatient hospital (POS code 22), respectively.

For additional information, refer to the Questions and Answers section, Q&A #1.

**Date of Service**

The date of service (DOS) on a claim for a laboratory test is the date the Specimen was collected and if collected over 2 calendar days, the DOS is the date the collection ended.

**Provider Specialties Eligible for Reimbursement of Laboratory Services**

**Reference Laboratory and Non-Reference Laboratory Providers:**

- Aligning with CMS, Reference Laboratories reporting laboratory services appended with modifier 90 are eligible for reimbursement.
- Non-reference laboratory physicians or other qualified health care professionals reporting laboratory services appended with modifier 90 are not eligible for reimbursement.
- Physicians or other qualified health care professionals who own laboratory equipment (Physician Office Laboratory) and perform laboratory testing report the laboratory service without appending modifier 90. These laboratory services are eligible for reimbursement.
- A valid Federal Clinical Laboratory Improvement Amendments (CLIA) Certificate Identification number is required for reimbursement of clinical laboratory services reported on a CMS 1500 Health Insurance Claim Form or its electronic equivalent.

Within the UnitedHealthcare Provider Administrative Guide it states, “If you are a physician, practitioner, or medical group, you may only bill for services that you or your staff perform. Pass-through billing is not permitted and may not be billed to our members. We only reimburse for laboratory services that you are certified to perform through the Federal Clinical Laboratory Improvement Amendments (CLIA). You must not bill our members for any laboratory services for which you lack the applicable CLIA certification.”

For more complete information refer to the UnitedHealthcare Provider Administration Guide

For additional information, refer to the Questions and Answers section, Q&A #2

For more complete information regarding CLIA requirements refer to the UnitedHealthcare “Clinical Laboratory Improvement Amendments (CLIA) ID Requirement Reimbursement Policy.”

**Duplicate Laboratory Charges**

**Same Group Physician or Other Qualified Health Care Professional**

Only one laboratory service is reimbursable when Duplicate Laboratory Services are submitted from the Same Group Physician or Other Qualified Health Care Professional.

Separate consideration will be given to repeat procedures (i.e., two laboratory procedures performed the same day) by the Same Group Physician or Other Qualified Health Care Professional when reported with modifier 91. Modifier 91 is appropriate when the repeat laboratory service is performed by a different individual in the same group with the same
According to CMS and CPT guidelines, Modifier 91 is appropriate when, during the course of treatment, it is necessary to repeat the same laboratory test for the same patient on the same day to obtain subsequent test results, such as when repeated blood tests are required at different intervals during the same day.

CPT instructions state that modifier 59 should not be used when a more descriptive modifier is available. CMS guidelines cite that the –X (EPSU) modifiers are more selective versions of modifier 59 so it would be incorrect to include both modifiers on the same line. Please refer to the “Modifiers” section for a complete listing of modifiers and their descriptions.

According to CMS and CPT coding guidelines, modifier 59, XE, XP, XS, or XU may be used when the same laboratory services are performed for the same patient on the same day. UnitedHealthcare will reimburse laboratory services reported with modifier 59, XE, XP, XS, or XU for different species or strains, as well as Specimens from distinctly separate anatomic sites.

For additional information, refer to the Questions and Answers section, Q&A #3, and #5.

According to the AMA and CMS, it is inappropriate to use modifier 76 or 77 to indicate repeat laboratory services. Modifiers 59, XE, XP, XS, XU, or 91 should be used to indicate repeat or distinct laboratory services when reported by the Same Group Physician or Other Qualified Health Care Professional. Separate consideration for reimbursement will not be given to laboratory codes reported with modifier 76 or 77.

**Multiple Physicians or Other Qualified Health Care Professionals**

Only one laboratory provider will be reimbursed when multiple individuals report Duplicate Laboratory Services. Multiple individuals may include, but are not limited to, any physician or other qualified health care professional, Independent Laboratory, Reference Laboratory, Referring Laboratory or pathologist reporting duplicate services.

For additional information, refer to the Questions and Answers section, Q&A #4.

**Reference Laboratory and Non-Reference Laboratory Providers:**

If a Reference Laboratory and a Non-Reference Laboratory Provider submit Duplicate Laboratory Services only the Reference Laboratory service is reimbursable.

**Independent Laboratory, Reference Laboratory and Referring Laboratory:**

Laboratory services billed with modifier 90 by a Referring Laboratory are reimbursable if a duplicate claim has not been received from an Independent Laboratory or Reference Laboratory. Duplicate services are not reimbursable, unless one laboratory appends modifier 91 to the code(s) submitted.

**Pathologist and Physician Office Laboratory Providers:**

If a pathologist and Physician Office Laboratory provider submit Duplicate Laboratory Services, only the pathologist's service is reimbursable, unless the Physician Office Laboratory provider appends a modifier 91 to the codes submitted.

For additional information, refer to the Questions and Answers section, Q&A #6.

**Anatomic Pathology Services and Purchased Diagnostic Services:**

If both the purchaser and supplier who performed the service bill Duplicate Laboratory Services, only one service is reimbursable, unless modifier 59, XE, XP, XS, XU or 91 is appended. Purchased Diagnostic Tests do not apply to automated or manual laboratory tests. UnitedHealthcare uses the Centers for Medicare and Medicaid Services (CMS) National Physician Fee Schedule (NPFS) Professional Component/Technical Component (PC/TC) indicators 1, 6, and 8 to identify laboratory services that are eligible as Purchased Diagnostic Tests.

PC/TC Indicator 1: Physician Service Codes (modifier TC and 26 codes)

PC/TC Indicator 6: Laboratory Physician Interpretation Codes

PC/TC Indicator 8: Physician Interpretation Codes
Purchased Laboratory Eligible Codes

For more complete information regarding when a professional or technical component is billed, refer to the UnitedHealthcare "Professional/Technical Component" policy. Refer to the UnitedHealthcare "Maximum Frequency per Day" policy for additional information on assigned MFD values.

Documentation Requirements for Reporting Laboratory Services

According to CMS, the physician or other qualified health care professional who is treating the patient must order all diagnostic laboratory tests, using these results in the management of the patient’s condition. Tests not ordered by the physician or other qualified health care professional are not reasonable and necessary.

The physician’s or other qualified health care professional’s documentation should clearly indicate all tests to be performed. For example, “run labs” or “check blood” by itself does not support intent to order.

The documentation must include the following:
- Progress notes or office notes signed by the physician or other qualified health care professional
- Physician or other qualified health care professional order/intent to order
- Laboratory results

For additional information, refer to the Questions and Answers section, Q&A #7

Laboratory Services Performed in a Facility Setting

The established policy for reimbursement of laboratory services performed in a facility setting is consistent with UnitedHealthcare's policy not to pay for duplicative laboratory services.

Manual and automated laboratory services submitted with a CMS facility POS 19, 21, 22, 23, 26, 34, 51, 52, 55, 56, 57 or 61 will not be reimbursable. These services are reimbursable to the facility. When facilities obtain manual or automated laboratory tests for patients under arrangements with an Independent Laboratory, Reference Laboratory or pathology group, only the facility may be reimbursed for the services.

Note: UnitedHealthcare will make an exception to this policy for reproductive laboratory medicine procedures 89250-89398 when the facility laboratory is not equipped to perform these specialized services and refers them to a reproductive laboratory. In the event that both a facility and an Independent Laboratory or Reference Laboratory report the same service on the same day for the same member, only the facility reproductive laboratory services may be reimbursed.

UnitedHealthcare uses the CMS National Physician Fee Schedule (NPFS) Professional Component/Technical Component (PC/TC) indicators 3 and 9 to identify laboratory services that are not reimbursable to an Independent Laboratory, Reference Laboratory or Non-Reference Laboratory provider in a facility setting.
- PC/TC indicator 3: Technical Component Only Codes
- PC/TC indicator 9: PC/TC Concept Not Applicable

Laboratory Codes with a PC/TC Indicator 3 or 9

For more complete information on when a professional or technical component is billed refer to the UnitedHealthcare "Professional/Technical Component Policy."

# Laboratory Panels

Individual laboratory codes, which together make up a laboratory Panel Code, will be combined into and reimbursed as the more comprehensive laboratory Panel Code as described under the specific laboratory panel headings below.

## Organ or Disease-Oriented Laboratory Panel Codes

The Organ or Disease-Oriented Panels as defined in the CPT book are codes 80047, 80048, 80050, 80051, 80053, 80055, 80061, 80069, 80074, 80076, and 80081. According to the CPT book, these panels were developed for coding purposes only and are not to be interpreted as clinical parameters. UnitedHealthcare uses CPT coding guidelines to define the components of each panel.

UnitedHealthcare also considers an individual component code included in the more comprehensive Panel Code when reported on the same date of service by the Same Individual Physician or Other Qualified Health Care Professional. The Professional Edition of the CPT® book, Organ or Disease-Oriented Panel section states: "Do not report two or more panel codes that include any of the same constituent tests performed from the same patient collection. If a group of tests overlaps two or more panels, report the panel that incorporates the greater number of tests to fulfill the code definition and report the remaining tests using individual test codes."

For reimbursement purposes, UnitedHealthcare differs from the CPT book's inclusion of the specific number of Component Codes within an Organ or Disease-Oriented Panel. UnitedHealthcare will bundle the individual Component Codes into the more comprehensive Panel Code when the combined reimbursement for the individual Panel Code(s) exceeds the reimbursement amount of the Panel Code or when the designated number of Component Codes identified within a Panel Code are submitted as set forth more fully in the tables below. The tables for CPT codes 80047, 80048, 80050, 80051, 80053, 80055, 80061, 80069, 80074, 80076 and 80081 identify the Component Codes that UnitedHealthcare will rebundle into the specific panel.

### Panel, 80047

CPT coding guidelines indicate that Panel CPT code 80047 should not be reported in conjunction with CPT code 80053. If a submission includes CPT 80047 and CPT 80053, only CPT 80053 will be reimbursed.

There are 2 configurations for Panel CPT code 80047:

1. A submission that includes CPT code 82330 plus 4 or more of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as Panel CPT code 80047.

<table>
<thead>
<tr>
<th>Panel Code: 80047</th>
</tr>
</thead>
<tbody>
<tr>
<td>Includes Component Code: 82330</td>
</tr>
<tr>
<td>Plus 4 or more of the following Component Codes for the same patient on the same date of service:</td>
</tr>
<tr>
<td>82374</td>
</tr>
<tr>
<td>84295</td>
</tr>
</tbody>
</table>

2. A submission that includes, Panel CPT code 80051 plus 1 or more of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as Panel CPT code 80047.

<table>
<thead>
<tr>
<th>Panel Code: 80047</th>
</tr>
</thead>
<tbody>
<tr>
<td>Includes the following Panel Code: 80051</td>
</tr>
</tbody>
</table>
Panel, 80048

CPT coding guidelines indicate that, Panel CPT code 80048 should not be reported in conjunction with Panel CPT 80053. If a submission includes Panel CPT 80048 and 80053, only Panel CPT 80053 will be reimbursed. There are 2 configurations for, Panel CPT code 80048:

1. A submission that includes 5 or more of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as, Panel CPT code 80048.

2. A submission that includes, Panel CPT code 80051 plus 1 or more of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service Panel CPT code 80048.

Panel, 80050

A submission that includes, Panel CPT code 80053, Panel CPT code 84443 and one of the following Component Codes, either CPT codes 85025 or 85027 + 85004 or 85027 + 85007 or 85027 + 85009 by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service, Panel CPT code 80050.
When Panel CPT code 80076 is submitted on the same date of service by the Same Individual Physician or Other Qualified Health Care Professional for the same patient as Panel CPT codes 80050, and 80076 will not be separately reimbursed.

Panel code 80053, a component of Panel code 80050, includes all components of Panel CPT code 80076 except for code 82248.

**Panel, 80051**

A submission that includes 2 or more of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service, Panel CPT code 80051.

<table>
<thead>
<tr>
<th>Component Code: 80051</th>
</tr>
</thead>
<tbody>
<tr>
<td>Includes 2 or more of the following individual Component Codes for the same patient on the same date of service:</td>
</tr>
<tr>
<td>82374</td>
</tr>
</tbody>
</table>

**Panel, 80053**

There are 3 configurations for Panel CPT code 80053:

1. A submission that includes 10 or more of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as, Panel CPT code 80053.

<table>
<thead>
<tr>
<th>Component Code: 80053</th>
</tr>
</thead>
<tbody>
<tr>
<td>Must contain 10 or more of the following Component Codes for the same patient on the same date of service:</td>
</tr>
<tr>
<td>82040</td>
</tr>
<tr>
<td>82565</td>
</tr>
<tr>
<td>84295</td>
</tr>
</tbody>
</table>

2. A submission that includes a Panel CPT code 80048, and 2 or more of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as, Panel CPT code 80053.

<table>
<thead>
<tr>
<th>Component Code: 80053</th>
</tr>
</thead>
<tbody>
<tr>
<td>Includes the following Panel Code: 80048</td>
</tr>
<tr>
<td>Plus 2 or more of the following Component Codes for the same patient on the same date of service:</td>
</tr>
<tr>
<td>82040</td>
</tr>
<tr>
<td>84460</td>
</tr>
</tbody>
</table>

3. A submission that includes, Panel CPT code 80051, and 6 or more of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as Panel CPT code 80053.
### Panel Code: 80053

**Includes the following Panel Code:** 80051

**Plus 6 or more of the following Component Codes for the same patient on the same date of service:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Code</th>
<th>Code</th>
<th>Code</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>82040</td>
<td>82247</td>
<td>82310</td>
<td>82565</td>
<td>82947</td>
</tr>
<tr>
<td>84075</td>
<td>84155</td>
<td>84450</td>
<td>84460</td>
<td>84520</td>
</tr>
</tbody>
</table>

When the Same Individual Physician or Other Qualified Health Care Professional reports the Panel CPT codes 80053 with 80048 or 80076 for the same patient on the same date of service, neither Panel CPT codes 80048 nor 80076 will be reimbursed separately.

CPT Panel Code 80053 includes all of the components of CPT Panel Code 80048 and all the components of CPT Panel Code 80076, except for CPT 82248. Therefore, when performed with all of the components of Panel CPT code 80053, report CPT 82248 separately.

#### Panel, 80055

A submission that includes one of the following CBC or combination of CBC Component Codes, either CPT codes 85025 or 85027 + 85004 or CPT codes 85027 + 85007 or 85027 + 85009 and each component CPT code 86592, 86762, 86850, 86900, 86901 and 87340 by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as Panel CPT code 80055.

**NOTE:** The CPT code 87340 is a component code of both the Panel CPT codes 80055 or 80081 and the Panel CPT code 80074, Panel CPT codes 80055 or 80081 takes Precedence.

### Panel Code: 80055

**Includes 1 of the following CBC or combination of CBC Component Codes for the same patient on the same date of service:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Code</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>85025</td>
<td>85027 + 85004</td>
<td>85027 + 85007</td>
</tr>
<tr>
<td>85027 + 85009</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Plus each of the following Component Codes for the same patient on the same date of service:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Code</th>
<th>Code</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>86592</td>
<td>86762</td>
<td>86850</td>
<td>86900</td>
</tr>
<tr>
<td>86901</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>87340</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Panel, 80061

A submission that includes all of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as a Panel CPT code 80061.

### Panel Code: 80061

**Includes all of the following Component Codes for the same patient on the same date of service:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Code</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>82465</td>
<td>83718</td>
<td>84478</td>
</tr>
</tbody>
</table>
Panel, 80069

A submission that includes 6 or more of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as a Panel CPT code 80069.

**NOTE:** Panel CPT code 80069 includes Panel 80048 submitted by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service.

<table>
<thead>
<tr>
<th>Panel Code: 80069</th>
</tr>
</thead>
<tbody>
<tr>
<td>Includes 6 or more of the following Component Codes for the same patient on the same date of service:</td>
</tr>
<tr>
<td>82040</td>
</tr>
<tr>
<td>82947</td>
</tr>
</tbody>
</table>

Panel, 80074

A submission that includes all of the following laboratory Component Codes by the Same Individual Physician or Other Qualified Health Care Professional for the same patient on the same date of service is a reimbursable service as Panel CPT code 80074.

**NOTE:** CPT code 87340 is a Component Code for both the Panel 80055 or 80081 and the Panel 80074. The Panel 80055 or 80081 takes Precedence.

<table>
<thead>
<tr>
<th>Panel Code: 80074</th>

Surgical Pathology

Surgical Pathology CPT codes 88300-88309 describe gross and microscopic examination and pathologic diagnosis of Specimen(s) submitted. Two or more Specimens separately identified from the same patient are each assigned an individual code reflective of its proper level of service. Under certain circumstances, the physician may need to report the same surgical pathology code for multiple Specimens for the same patient on the same date of service.

Pathology Specimens from the same anatomic site reported with the same Surgical Pathology CPT code may be reported on one line with multiple units.

Duplicate pathology Specimens reported with the same Surgical Pathology CPT code must be reported with a modifier 59, XE, XP, XS, XU, or 91 to receive separate consideration.

Venipuncture and Specimen Collection

Consistent with CMS, only one collection fee for each type of Specimen per patient encounter, regardless of the number of Specimens drawn, will be allowed. A collection fee will not be reimbursed to anyone who did not extract the Specimen.

Venous blood collection by venipuncture and capillary blood Specimen collection (CPT codes 36415 and 36416) will be reimbursed once per patient per date of service when reported by the Same Individual Physician or Other Qualified Health Care Professional. When CPT code 36416 is submitted with CPT code 36415, CPT code 36415 is the only venipuncture code considered eligible for reimbursement. No modifier overrides will exempt CPT code 36416 from bundling into CPT code 36415.

Consistent with CMS, UnitedHealthcare considers collection of a Specimen from a completely implantable venous access device and from an established catheter (CPT codes 36591 and 36592) to be bundled into services assigned a CMS NPFS Status Indicator of A, R or T provided on the same date of service by the Same Individual Physician or Other Qualified Health Care Professional, for which payment is made. When CPT code 36591 is submitted with CPT code 36592, CPT code 36592 is the only venipuncture code considered eligible for reimbursement. No modifier overrides will exempt CPT code 36591 from bundling into CPT code 36592.

Laboratory Status Indicator A R T codes

UnitedHealthcare considers venipuncture code S9529 a non-reimbursable service. The description for S9529 focuses on
Commercial Reimbursement Policy
CMS 1500
Policy Number 2020R0010B

place of service for a service that is more precisely represented by CPT code 36415 and reported with the appropriate CMS place of service code.

Consistent with CMS, specimen collection HCPCS code G0471 is reimbursable only when a Specimen is collected from an individual in a skilled nursing facility or by a laboratory on behalf of a home health agency.

### Laboratory Handling

Laboratory handling and conveyance CPT codes 99000 and 99001 and HCPCS code H0048 are included in the overall management of a patient and are not separately reimbursed.

### Clinical and Surgical Pathology Consultations (80500 – 80502 and 88321 – 88325)

CPT codes 80500, 80502, and 88321 – 88325 are reimbursable services only to Reference Laboratories and to providers whose primary specialty is pathology or dermatology.

UnitedHealthcare considers clinical and surgical pathology consultation codes as included in an Evaluation and Management (E/M) service provided for the same patient on the same date of service. If billed with an E/M service, codes 80500-80502 and/or 88321-88325 are not separately reimbursable.

### Evaluation and Management Codes for the Laboratory Services Policy

### Drug Assay Codes

Consistent with CMS, Drug Assay CPT codes 80320-80377 are considered non-reimbursable. These services may be reported under an appropriate HCPCS code.
For additional information, refer to the Questions and Answers section, Q&A #8

### Definitions

<table>
<thead>
<tr>
<th>CMS NPFS Status A</th>
<th><strong>Active Code.</strong> These codes are paid separately under the physician fee schedule, if covered. There will be RVUs for codes with this status. The presence of an &quot;A&quot; indicator does not mean that Medicare has made a national coverage determination regarding the service; carriers remain responsible for coverage decisions in the absence of a national Medicare policy.</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMS NPFS Status R</td>
<td><strong>Restricted Coverage.</strong> Special coverage instructions apply. If covered, the service is carrier priced. (NOTE: The majority of codes to which this indicator will be assigned are the alphanumeric dental codes, which begin with &quot;D&quot;. We are assigning the indicator to a limited number of CPT codes which represent services that are covered only in unusual circumstances.)</td>
</tr>
<tr>
<td>CMS NPFS Status T</td>
<td><strong>Injections.</strong> There are RVUS and payment amounts for these services, but they are only paid if there are no other services payable under the physician fee schedule billed on the same date by the same provider. If any other services payable under the physician fee schedule are billed on the same date by the same provider, these services are bundled into the physician services for which payment is made. (NOTE: This is a change from the previous definition, which states that injection services are bundled into any other services billed on the same date.)</td>
</tr>
<tr>
<td>Component Codes</td>
<td>Identify individual tests that when performed together may comprise a panel.</td>
</tr>
<tr>
<td>Duplicate Laboratory Service</td>
<td>Identical or equivalent bundled laboratory Component Codes, submitted for the same patient on the same date of service on separate claim lines or on different claims regardless of the assigned Maximum Frequency per Day (MFD) value.</td>
</tr>

| **Non-Reference Laboratory Provider** | A physician or a Pathologist reporting laboratory procedures performed in their office. |
| **Panel Codes** | Identify, for coding purposes, a group of tests commonly performed as a group or profile. |
| **Physician Office Laboratory** | A laboratory maintained by a physician or group of physicians for performing diagnostic tests in connection with the physician practice. |
| **Precedence** | The fact, state, or right of preceding priority; priority claimed because of pre-eminence or superiority. |
| **Purchased Diagnostic Tests** | When one component (technical or professional) of a diagnostic test is purchased from a laboratory supplier by a physician or laboratory. Purchased Diagnostic Tests include laboratory or pathology services that are listed in the (CMS) National Physician Fee Schedule with a PC/TC indicator 1, 6, or 8. Purchased services do not apply to automated or manual laboratory services. |
| **Independent Laboratory** | An Independent Laboratory is one that is independent both of an attending or consulting physician’s office and of a hospital that meets at least the requirements to qualify as an emergency hospital. An Independent Laboratory must meet Federal and State requirements for certification and proficiency testing under the Clinical Laboratories Improvement Act (CLIA). |
| **Reference Laboratory** | A Reference Laboratory that receives a Specimen from another, Referring Laboratory for testing and that actually performs the test is often referred to as an Independent Laboratory. |
| **Referring Laboratory** | A Referring Laboratory is one that receives a Specimen to be tested and that refers the Specimen to another laboratory for performance of the laboratory test. |
| **Same Group Physician or Other Qualified Health Care Professional** | All physicians and/or other qualified health care professionals of the same group reporting the same Federal Tax Identification number. |
| **Same Individual Physician or Other Qualified Health Care Professional** | The same individual rendering health care services reporting the same Federal Tax Identification number. |
| **Specimen** | Tissue or tissues that is (are) submitted for individual and separate attention, requiring individual examination and pathological diagnosis. Two or more such Specimens from the same patient (eg, separately identifiable endoscopic biopsies, skin lesions) are each appropriately assigned an individual code reflective of its proper level of service. |

### Questions and Answers

<table>
<thead>
<tr>
<th>Q: What place of service should an Independent or Reference Laboratory report when billing?</th>
</tr>
</thead>
<tbody>
<tr>
<td>A: When billing, the place of service reported should be the location where the Specimen was obtained. For example, a specimen removed from a hospitalized patient and sent to the laboratory would be reported with Place of Service (POS) 21 or 22; a sample taken at a physician's office and referred to the laboratory would be reported with POS 11; if the Independent or Reference Laboratory did the blood drawing in its own setting, it should report POS 81.</td>
</tr>
</tbody>
</table>

**1**

<table>
<thead>
<tr>
<th>Q: What provider specialty is eligible to report and receive reimbursement for Laboratory services?</th>
</tr>
</thead>
<tbody>
<tr>
<td>A: As stated in the UnitedHealthcare Provider Administration Guide you may only bill for services that you or your staff perform. If your provider specialty is a Reference Laboratory, report laboratory services appended with modifier 90 to indicate a Reference (Outside) Laboratory.</td>
</tr>
</tbody>
</table>

**2**

Q: Will identical or equivalent laboratory Component Codes submitted on the same day for the same patient by the Same Group Physician or Other Qualified Health Care Professional be denied as Duplicate Laboratory Services?
A: Yes, identical or equivalent laboratory Component Codes are denied unless the appropriate repeat laboratory procedure modifier (modifier 59, XE, XP, XS, XU, or 91) is appended to the code(s) submitted.

Q: Will consecutive or serial tests provided on the same day to the same patient by either physicians of the same group or multiple providers be denied as a Duplicate Laboratory Service?
A: Yes, consecutive or serial tests are denied unless the appropriate repeat laboratory procedure modifier (modifier 91) is appended to the codes submitted.

Q: In what circumstance(s) is it appropriate to report modifier 59 with a laboratory service?
A: When identifying procedures/services that are performed by the same or multiple individuals or Same Group Physician or Other Qualified Health Care Professional for the same patient on the same day, modifier 59, XE, XP, XS, or XU is appropriate. Multiple individuals may include, but are not limited to, any physician or other qualified health care professional, Reference Laboratory, Referring Laboratory or pathologist. Circumstances include:
- Mutually exclusive procedures (e.g., a Panel Code and one of its individual Component Codes reported together).
- Repeat laboratory services on Specimens from distinctly separate anatomic sites.
- Repeat laboratory services for different species or strains.

Q: If a pathologist and a treating physician report identical codes for the same individual on the same date of service, how will each claim be reimbursed?
A: Only the pathologist will be reimbursed. The treating physician may also be reimbursed if modifier 59, XE, XP, XS, XU, or 91 is appropriately reported with the code(s) submitted to distinguish that it was a distinct or repeat laboratory service.

Q: Can laboratory tests be performed in the absence of a physician(s) or other qualified health care professional(s) documentation or signed physician orders?
A: No, physicians or other qualified health care professionals who order laboratory services for patients must maintain documentation of the order/intent of the service(s) or signed progress notes or office notes.

Q: Why is code 83992 added to the Drug Assay Testing section code range 80320 - 80377?
A: CPT code 83992 which was resequenced, is included in the Drug Assay Testing code range, 80320-80377. In CPT, code 83992 has been placed between 80365 and 80366, which falls into the Drug Assay Testing code range.

Q: Is a separate collection of the specimen and order necessary for the appropriate use of modifier 91?
A: Yes, a separate collection with appropriate order is required for proper use of modifier 91. The order may be part of a sequential order or may be a standalone order for the same test, same day and same patient.

For Example: Cardiac enzymes-CPT code 82550 may be drawn at different times on the same date of service (DOS). Reporting 82550-91 for each additional blood draw would be an appropriate use of modifier 91. The DOS on a claim for a laboratory test is the date the Specimen was collected and if collected over 2 calendar days, the DOS is the date the collection ended.

### Services Policy

| **Laboratory Codes with a PC/TC Indicator 3 or 9** | A list of codes that have been assigned a Professional Component/ Technical Component (PC/TC) Indicator of 3 or 9.  
**PC/TC Indicator 3:** Technical Component Only code  
**PC/TC Indicator 9:** The concept of a professional/technical component does not apply  
These services are not reimbursable to a Reference Laboratory or Non-Reference Laboratory Provider in a facility setting. |
| --- | --- |
| **Purchased Laboratory Eligible Codes** | A list of laboratory codes that have been assigned a Professional Component/ Technical Component (PC/TC) Indicator of 1, 6, or 8.  
**PC/TC Indicator 1:** Physician Service Codes (modifier TC and 26 codes)  
**PC/TC Indicator 6:** Laboratory Physician Interpretation Codes  
**PC/TC Indicator 8:** Physician Interpretation Codes  
These services are reimbursable as Purchased Diagnostic Tests when billed with a modifier 90. |
| **Laboratory Status Indicator A R T Codes** | A list of codes that have a CMS NPFS Status Indicator of A, R or T. |
