

Contrast and Radiopharmaceutical Materials Policy, Professional

IMPORTANT NOTE ABOUT THIS REIMBURSEMENT POLICY

You are responsible for submission of accurate claims. This reimbursement policy is intended to ensure that you are reimbursed based on the code or codes that correctly describe the health care services provided. UnitedHealthcare Individual Exchange reimbursement policies may use Current Procedural Terminology (CPT®), Centers for Medicare and Medicaid Services (CMS) or other coding guidelines. References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement.

This reimbursement policy applies to all health care services billed on CMS 1500 form. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design, and other factors are considered in developing reimbursement policy.

This information is intended to serve only as a general reference resource regarding UnitedHealthcare Individual Exchange's reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Accordingly, UnitedHealthcare Individual Exchange may use reasonable discretion in interpreting and applying this policy to health care services provided in a particular case. Further, the policy does not address all issues related to reimbursement for health care services provided to UnitedHealthcare Individual Exchange enrollees. Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors may include, but are not limited to legislative mandates, the physician or other provider contracts, the enrollee's benefit coverage documents and/or other reimbursement, medical or drug policies. Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare Individual Exchange due to programming or other constraints; however, UnitedHealthcare Individual Exchange strives to minimize these variations.

UnitedHealthcare Individual Exchange may modify this reimbursement policy at any time by publishing a new version of the policy on this Website. However, the information presented in this policy is accurate and current as of the date of publication.

Application

This reimbursement policy applies to UnitedHealthcare Individual Exchange products.

This reimbursement policy applies to services reported using the 1500 Health Insurance Claim Form (a/k/a CMS-1500) or its electronic equivalent or its successor form. This policy applies to all products, all network and non-network physicians and other qualified health care professionals, including, but not limited to, non-network authorized and percent of charge contract physicians and other qualified health care professionals.

Applicable States:

This reimbursement policy applies to Individual Exchange benefit plans in all states except for Massachusetts, Nevada, and New York.

Policy

Overview

This policy identifies circumstances where UnitedHealthcare Individual Exchange will reimburse physicians and other qualified health care professionals for High and Low Osmolar Contrast and Radiopharmaceutical Materials.

For the purposes of this policy, the Same Group Physician or Other Qualified Health Care Professional is defined as all physicians and/or other qualified health care professionals of the same group rendering health care services reporting the same Federal Tax Identification number.

Reimbursement Guidelines

UnitedHealthcare Individual Exchange does not permit reimbursement for the technical component or global service of an imaging procedure to a physician or other qualified healthcare professional when the procedure is performed in a facility Place of Service (POS) (19, 21, 22, 23, 24, 26, 34, 51, 52, 56, or 61). UnitedHealthcare Individual Exchange will not provide reimbursement to a physician or other qualified health care professional for High Osmolar Contrast Materials (HOCM), Low Osmolar Contrast Materials (LOCM) or Radiopharmaceutical Materials submitted with HCPCS codes A4641, A4642, A9500-A9700, J1245, Q3001, Q9951, Q9953, Q9954, Q9956, Q9957 and Q9958-Q9968 with a facility POS, as these materials would be needed in order to perform the technical component of the imaging or therapeutic nuclear medicine procedure. However, separate reimbursement to a physician for HOCM, LOCM or Radiopharmaceutical Materials will be allowed in an Ambulatory Surgical Center (ASC) (POS 24) when provided in conjunction with eligible imaging procedures that are not included on the Centers for Medicare and Medicaid Services (CMS) Ambulatory Surgical Center Fee Schedule (ASCFS) Addendum BB. The technical component, global service and associated HOCM, LOCM or Radiopharmaceutical Materials for procedures listed on the ASCFS Addendum BB are included in the facility case rate and not separately reimbursable.

Service Reported in a CMS Non-Facility Place of Service

When an imaging or therapeutic nuclear medicine procedure is performed in a non-facility setting, UnitedHealthcare Individual Exchange will provide separate reimbursement to the Same Group Physician or Other Qualified Health Care Professional for HOCM, LOCM or Radiopharmaceutical Materials when reported on the same date of service with a procedure code that requires contrast or Radiopharmaceutical Materials. Additionally, UnitedHealthcare Individual Exchange will also allow separate reimbursement for contrast and Radiopharmaceutical Materials reported with a date of service up to two days prior to a nuclear medicine imaging scan.

In accordance with CMS coding guidelines, UnitedHealthcare Individual Exchange will not provide separate reimbursement for Radiopharmaceutical Materials HCPCS code A9512 when submitted with A9538 or A9560 on the same day by the Same Group Physician or Other Qualified Health Care Professional.

For more information regarding the professional/technical concept, refer to the UnitedHealthcare Individual Exchange "Professional/Technical Component" policy.

Definitions

Osmolar Contrast Materials	An iodine-based substance, administered intravascularly, intra-articularly or intrathecally, that is used to enhance the visibility of structures or fluids within the body during an imaging procedure such as an X-ray, MRI or CT image, or other diagnostic/interventional cardiovascular procedures.
Radiopharmaceutical Materials	Radioactive chemical or pharmaceutical preparations, used as diagnostic or therapeutic agents
Same Group Physician and/or Other Qualified Health Care Professional	All physicians and/or other qualified health care professionals of the same group reporting the same Federal Tax Identification number.

Questions and Answers	
1	<p>Q: How was the Eligible Imaging and Therapeutic Procedures Code List derived?</p> <p>A: The Eligible Imaging and Therapeutic Procedures Code List was developed by UnitedHealthcare Individual Exchange based on the following criteria:</p> <ul style="list-style-type: none"> • Those codes whose CPT or HCPCS descriptor includes the terms: with contrast, with imaging guidance (fluoroscopy or CT), or including radiologic localization (includes contrast when administered); and • Additional codes in which clinical review determined that contrast or Radiopharmaceutical Materials were required in order to perform the service.
2	<p>Q: Does UnitedHealthcare Individual Exchange reimburse for contrast and Radiopharmaceutical materials reported with a date of service up to two days prior to all eligible imaging or therapeutic procedures?</p> <p>A: No. UnitedHealthcare Individual Exchange will only allow separate reimbursement for contrast and Radiopharmaceutical materials reported with a date of service up to two days prior to a nuclear medicine imaging scan (CPT codes 78012-79999).</p>
3	<p>Q: Does UnitedHealthcare Individual Exchange reimburse for contrast and Radiopharmaceutical Materials reported with an imaging and therapeutic or nuclear medicine procedure that is denied based on another UnitedHealthcare reimbursement policy?</p> <p>A: No. UnitedHealthcare Individual Exchange will only allow separate reimbursement for contrast and Radiopharmaceutical Materials when reported with an eligible imaging and therapeutic or nuclear medicine procedure that is also eligible for reimbursement.</p>
