This reimbursement policy applies to all health care services billed on CMS 1500 forms and, when specified, to those billed on UB04 forms. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design and other factors are considered in developing reimbursement policy.

This information is intended to serve only as a general reference resource regarding UnitedHealthcare Value & Balance Exchange's reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Policy
<p>Overview</p> <p>This policy sets forth UnitedHealthcare Value & Balance Exchange Plan's policy regarding reimbursement for claims appended with modifier SU, <i>Procedure performed in physician's office (to denote use of facility and equipment)</i>, in an office place of service.</p>
<p>Reimbursement Guidelines</p> <p>The Centers for Medicare and Medicaid Services (CMS) indicates that the Health Care Common Procedure Coding System (HCPCS) modifier SU, <i>Procedure performed in physician's office (to denote use of facility and equipment)</i>, is not payable. CMS establishes Relative Value Units (RVU) for CPT and HCPCS codes that include the costs of running an office (such as rent, equipment, supplies and non-physician staff costs) which are referred to as the practice expense RVU. In accordance with CMS, UnitedHealthcare Value & Balance Exchange Plan does not allow</p>

reimbursement for services appended with modifier SU in an office place of service since the use of the office facility and equipment is included in the practice expense RVU, or the costs associated with operating an office.

If the charges associated with the use of the modifier SU are submitted by a different provider than the physician performing the office procedure, they will not be considered for separate reimbursement since these practice expenses are considered included in the reimbursement for the physician performing the service.

Definitions

Relative Value Units	The assigned unit value of a particular CPT or HCPCS code. The associated RVU is either from the CMS NPFPS Non-Facility Total value or Facility Total value.
