

Outpatient Hospital Observation Policy, Facility

IMPORTANT NOTE ABOUT THIS REIMBURSEMENT POLICY

You are responsible for submission of accurate claims. This reimbursement policy is intended to ensure that you are reimbursed based on the code or codes that correctly describe the health care services provided. UnitedHealthcare Value & Balance Exchange reimbursement policies may use Current Procedural Terminology (CPT®*), Centers for Medicare and Medicaid Services (CMS) or other coding guidelines. References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement.

This reimbursement policy applies to all health care services billed on CMS 1500 forms and, when specified, to those billed on UB04 forms. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design and other factors are considered in developing reimbursement policy.

This information is intended to serve only as a general reference resource regarding UnitedHealthcare Value & Balance Exchange's reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Accordingly, UnitedHealthcare Value & Balance Exchange may use reasonable discretion in interpreting and applying this policy to health care services provided in a particular case. Further, the policy does not address all issues related to reimbursement for health care services provided to UnitedHealthcare Value & Balance Exchange enrollees. Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors may include, but are not limited to: legislative mandates, the physician or other provider contracts, the enrollee's benefit coverage documents and/or other reimbursement, medical or drug policies. Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare Value & Balance Exchange due to programming or other constraints; however, UnitedHealthcare Value & Balance Exchange strives to minimize these variations.

UnitedHealthcare Value & Balance Exchange may modify this reimbursement policy at any time by publishing a new version of the policy on this Website. However, the information presented in this policy is accurate and current as of the date of publication.

Application

This reimbursement policy applies to UnitedHealthcare Value & Balance Exchange products.

This reimbursement policy applies to services reported using the UB-04 claim form or its electronic equivalent or its successor form. This policy applies to all products and all network and non-network outpatient hospital claims, including, but not limited to, non-network authorized, and percent of charge contract facilities.

Policy

Overview

Observation care is a well-defined set of specific, clinically appropriate services, which include ongoing short term treatment, assessment, and reassessment, that are furnished while a decision is being made regarding whether patients will require further treatment as hospital inpatients or if they are able to be discharged from the hospital. Observation services are commonly ordered for patients who present to the emergency department and who then require a significant period of treatment or monitoring in order to make a decision concerning their admission or discharge.

Hospital outpatient observation services are reported with the Centers for Medicare and Medicaid Services (CMS) HCPCS codes G0378 and G0379. CMS publishes guidelines for use of these codes to allow for consistent coding and billing by facilities reporting observation services.

Reimbursement Guidelines

Observation Services (HCPCS code G0378)

Observation services must be reported by facilities utilizing the following guidelines:

- Observation services are submitted with type of bill 13X or 85X.
- Report HCPCS code G0378 (hospital observation service, per hour) under the appropriate revenue code (0762) with units that represent the hours in observation care (rounded to the nearest hour).
- Observation service code G0378 will only be considered for reimbursement when the observation period meets or exceeds 8 hours.

Observation services code G0378 should only be reported when one of the following services was also provided on the same date of service or the day before the date reported for observation.

- Emergency Department visit (99281-99285, G0380-G0384), or
- Clinic visit (HCPCS code G0463), or
- Critical care (CPT code 99291), or
- Direct referral for observation care reported with HCPCS code G0379 which must be reported on the same date of service as the date reported for observation.

Observation services must be reported on a single line and the date of service for that line is the date that observation care begins. Observation services should not be reported with a date span or on separate claim lines even when the period of observation care spans more than one calendar day.

Observation care should not be reported for monitoring that is inclusive of, or included in payment for, a surgical, diagnostic, or therapeutic procedure (Example: observation associated with monitoring during surgical recovery or for routine preparation and recovery services required for a diagnostic test). HCPCS code G0378 will not be reimbursed when reported in addition to procedure codes that are assigned a status indicator of J1 or T under the CMS Integrated Outpatient Code Editor (IOCE).

The status indicator J1 and T code list can be found in the link below following this path: OCE Quarterly Release Files>OCE Quarterly Data Files>Data Table Reports>Data HCPCS.xlsx.

<https://www.cms.gov/Medicare/Coding/OutpatientCodeEdit/OCEQtrReleaseSpecs>

Direct Referral/Admission to Observation Care (HCPCS code G0379)

Facilities should report HCPCS code G0379 when observation services are the result of a direct referral/admission for observation care without an associated emergency room visit, hospital outpatient clinic visit or critical care service on the day of initiation of observation services. Facilities should only report HCPCS code G0379 when a patient is referred directly to observation care after being seen by a physician in the community.

Direct admission of a patient for hospital observation care code G0379 is not reimbursable if not submitted on the same date of service as G0378. In addition, code G0379 is not separately payable when a critical care service (CPT 99291), clinic service (HCPCS G0463), emergency department visit, or a service assigned a status indicator of T or V under the CMS IOCE are reported on the same date of service.

Questions and Answers

- | | |
|----------|--|
| 1 | Q: How do I report HCPCS code G0378 for observation care that began at 10:00 PM on one date (Friday), but was not discharged until 4:00 PM on the following day (Saturday)? |
|----------|--|

	<p>A: Observation care is reported on a single claim line using the date of service on which the patient was admitted for observation. For this example, HCPCS code G0378 would be reported on a single claim line with 18 units and the Friday date of service. No other claim would be submitted for that observation period.</p>
2	<p>Q: Is it appropriate to report HCPCS code G0379 (direct admission for observation care) when the patient was admitted through the emergency department.</p> <p>A: No. HCPCS code G0379 is intended for use when the patient is seen by a physician in the community and then sends the patient to the outpatient facility specifically for observation services. The placement of a patient in observation care after receiving outpatient services such as an emergency department visit, outpatient clinic visit or critical care is not considered a direct admission to observation.</p>
3	<p>Q: How would I report the appropriate hours/units when an observation service started at 10:15 AM and ended at 6:52 PM on the same day.</p> <p>A: It would be appropriate to round to the nearest hour, so in this example you would round the start time to 10:00 AM and the end time to 7:00 PM. That would equate to 9 hours/units of observation services that can be reported.</p>
4	<p>Q: Can I report G0378 when the patient is to be observed/monitored for 2 hours.</p> <p>A: Yes. You should accurately report the number of observation units/hours provided, but in order to be considered for reimbursement under the CMS billing and payment guidelines and this policy, the indicated number of units reported with HCPCS code G0378 must equal or exceed 8 hours.</p>
5	<p>Q: Why are the CPT observation codes 99217-99220, 99224-99226, and 99234-99236 not addressed in this policy?</p> <p>A: These CPT codes are for reporting physician or other healthcare practitioner professional services. These services are addressed in the UnitedHealthcare Value & Balance Exchange reimbursement policy titled, "Observation and Discharge Policy, Professional".</p>
