

Replacement Codes Policy, Professional

IMPORTANT NOTE ABOUT THIS REIMBURSEMENT POLICY

You are responsible for submission of accurate claims. This reimbursement policy is intended to ensure that you are reimbursed based on the code or codes that correctly describe the health care services provided. UnitedHealthcare Individual Exchange reimbursement policies may use Current Procedural Terminology (CPT®), Centers for Medicare and Medicaid Services (CMS) or other coding guidelines. References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement.

This reimbursement policy applies to all health care services billed on CMS 1500 form. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design and other factors are considered in developing reimbursement policy.

This information is intended to serve only as a general reference resource regarding UnitedHealthcare Individual Exchange’s reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Accordingly, UnitedHealthcare Individual Exchange may use reasonable discretion in interpreting and applying this policy to health care services provided in a particular case. Further, the policy does not address all issues related to reimbursement for health care services provided to UnitedHealthcare Individual Exchange enrollees. Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors may include, but are not limited to: legislative mandates, the physician or other provider contracts, the enrollee’s benefit coverage documents and/or other reimbursement, medical or drug policies. Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare Individual Exchange due to programming or other constraints; however, UnitedHealthcare Individual Exchange strives to minimize these variations.

UnitedHealthcare Individual Exchange may modify this reimbursement policy at any time by publishing a new version of the policy on this Website. However, the information presented in this policy is accurate and current as of the date of publication.

Application

This reimbursement policy applies to UnitedHealthcare Individual Exchange products.

This reimbursement policy applies to services reported using the 1500 Health Insurance Claim Form (a/k/a CMS-1500) or its electronic equivalent or its successor form. This policy applies to all products, all network and non-network physicians and other qualified health care professionals, including, but not limited to, non-network authorized and percent of charge contract physicians and other qualified health care professionals.

Applicable States:

This reimbursement policy applies to Individual Exchange benefit plans in all states except for Massachusetts, Nevada, and New York.

Policy

Overview

All codes published on the National Physician Fee Schedule (NPFS) by the Centers for Medicare and Medicaid Services (CMS) are assigned a status code. This policy addresses specific codes assigned status code "I" where CMS has indicated a replacement code is available and has assigned a Relative Value Unit (RVU) to the replacement code.

Reimbursement Guidelines

Per the public use file that accompanies the NPFS Relative Value File, the following is stated for status code "I": Not valid for Medicare purposes. Medicare uses another code for reporting of, and payment for, these services.

In certain instances, CMS creates Healthcare Common Procedure Coding System (HCPCS) replacement codes for physicians and/or healthcare professionals to report in lieu of the Current Procedural Terminology (CPT®) or HCPCS codes assigned an “I” status. The replacement codes allow for additional code specificity so that the appropriate reimbursement and beneficiary coverage can be applied for the service provided.

In the example below CMS has replaced intraoperative neurophysiology CPT code 95941 with HCPCS code G0453 which is specific to a single beneficiary.

Note: RVU values may not accurately reflect the current NPFS and are intended for illustrative purposes only.

NPFS status	Code	RVU
I = Not valid for Medicare purposes	95941	0.00
A = Active Code	G0453	0.93

Consistent with CMS, UnitedHealthcare Individual Exchange will not separately reimburse for specific CPT or HCPCS codes assigned a status code “I” on the NPFS Relative Value File, indicating another code (replacement code) is used to report the procedure or service and that replacement code has an assigned RVU. Codes from the NPFS with a status of “I” addressed in other UnitedHealthcare Individual Exchange reimbursement policies, codes with no identified replacement code and those where the replacement code does not have an RVU are not included in this policy. The physician or healthcare professional is required to report the replacement code that best describes the service provided.

Replacement Codes

I Status Code	Replacement Code
44705	G0455
77387	G6001
77387	G6002
77402	G6003
