Reimbursement Guidelines

The American Medical Association *Current Procedural Terminology* (CPT®) Professional Edition gives the following instruction for code selection: "Select the name of the procedure or service that accurately identifies the service

performed."

According to Centers for Medicare and Medicaid Services (CMS), Place of Service (POS) Codes Database: "Place of service codes and descriptions should be used on professional claims to specify the entity where service(s) were rendered."

Consistent with CPT® and CMS, physicians and other healthcare professionals should report the evaluation and management, and /or procedure code(s) that specifically describe the service(s) performed. Additionally, a place of service code should be utilized to report where service(s) were rendered.
