INSTRUCTIONS FOR USE

The services described in Oxford policies are subject to the terms, conditions and limitations of the member's contract or certificate. Unless otherwise stated, Oxford policies do not apply to Medicare Advantage members. Oxford reserves the right, in its sole discretion, to modify policies as necessary without prior written notice unless otherwise required by Oxford's administrative procedures or applicable state law. The term Oxford includes Oxford Health Plans, LLC and all of its subsidiaries as appropriate for these policies.

Certain policies may not be applicable to Self-Funded members and certain insured products. Refer to the member specific benefit plan document or Certificate of Coverage to determine whether coverage is provided or if there are any exclusions or benefit limitations applicable to any of these policies. If there is a difference between any policy and the member specific benefit plan document or Certificate of Coverage, the member specific benefit plan document or Certificate of Coverage will govern.

UnitedHealthcare may also use tools developed by third parties, such as the MCG™ Care Guidelines, to assist us in administering health benefits. The MCG™ Care Guidelines are intended to be used in connection with the independent professional medical judgment of a qualified health care provider and do not constitute the practice of medicine or medical advice.

APPLICABLE LINES OF BUSINESS/PRODUCTS

This policy applies to Oxford Commercial plan membership.

APPLICATION

This reimbursement policy applies to services reported using the UB-04 claim form, the 1500 Health Insurance Claim Form (a/k/a CMS-1500), or their electronic equivalents or their successor forms. This policy applies to all network and non-network providers, including hospitals, ambulatory surgical centers, physicians and other qualified health care professionals, including, but not limited to, non-network authorized and percent of charge contract physicians and other qualified health care professionals.

OVERVIEW

All codes published on the National Physician Fee Schedule (NPFS) by the Centers for Medicare and Medicaid Services (CMS) are assigned a status code. The status code indicates whether the code is separately payable if the service is covered.

REIMBURSEMENT GUIDELINES

All codes published on the NPFS Relative Value File are assigned a status code. The status code indicates whether the code is separately payable if the service is covered. Per the public use file that accompanies the NPFS Relative Value File, the following is stated for status indicator "T": "There are RVUs and payment amounts for these services, but they are only paid if there are no other services payable under the physician fee schedule billed on the same date by the same provider. If any other services payable under the physician fee schedule are billed on the same date by the same provider, these services are bundled into the physician services for which payment is made."

Consistent with CMS, Oxford considers Current Procedural Terminology (CPT®) and Healthcare Common Procedural Coding System (HCPCS) codes with a status indicator of "T" according to the CMS NPFS bundled into any other service assigned a status indicator of "A" or "R" provided, on the same date by the Same Individual Physician, Hospital, Ambulatory Surgical Center or Other Health Care Professional, for which payment is made. Modifier overrides will not prevent codes with a status indicator of "T" from bundling into other services.

Per the public use file that accompanies the NPFS Relative Value File, the following is stated for status indicator of "A": "Active Code. These codes are paid separately under the physician fee schedule, if covered. There will be RVUs for codes with this status. The presence of an 'A' indicator does not mean that Medicare has made a national coverage determination regarding the service; carriers remain responsible for coverage decisions in the absence of a national Medicare policy."

The following is stated for status indicator of "R": "Restricted Coverage. Special coverage instructions apply. If covered, the service is carrier priced."

Note: The majority of codes to which this indicator will be assigned are the alpha-numeric dental codes, which begin with "D." We are assigning the indicator to a limited number of CPT codes which represent services that are covered only in unusual circumstances.

[Payable Service Codes List](#)

In some instances a code assigned a status indicator of T is also considered payable when reported alone or in the case of two codes assigned a status indicator of "T" being billed together with no additional service, on the same date of service by the Same Individual Physician, Hospital, Ambulatory Surgical Center or Other Health Care Professional, Oxford will bundle the code with the lower relative value unit (RVU) into the code with the higher RVU. For additional information, refer to the Questions and Answers section, [Q&A #2](#).

DEFINITIONS

Same Individual Physician, Hospital, Ambulatory Surgical Center or Other Health Care Professional: The same individual physician, hospital, ambulatory surgical center, or other health care professional rendering health care services reporting the same Federal Tax Identification number.

APPLICABLE CODES

The following list(s) of procedure and/or diagnosis codes is provided for reference purposes only and may not be all inclusive. Listing of a code in this policy does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by the member specific benefit plan document and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies may apply.

CPT Code	Description
Codes with a Status Indicator of T	
36598	Contrast injection(s) for radiologic evaluation of existing central venous access device, including fluoroscopy, image documentation and report
94760	Noninvasive ear or pulse oximetry for oxygen saturation; single determination
94761	Noninvasive ear or pulse oximetry for oxygen saturation; multiple determinations (e.g., during exercise)
96523	Irrigation of implanted venous access device for drug delivery systems

CPT® is a registered trademark of the American Medical Association

HCPCS Code	Description
Codes with a Status Indicator of T	
G0117	Glaucoma screening for high risk patients furnished by an optometrist or ophthalmologist
G0118	Glaucoma screening for high risk patient furnished under the direct supervision of an optometrist or ophthalmologist

QUESTIONS AND ANSWERS

1	Q:	Why does this policy not address all codes that the NPFS identifies as T status?
	A:	Codes from the NPFS with a status of "T", but otherwise addressed in other Oxford reimbursement policies, are not included in this policy.
2	Q:	Will Oxford reimburse two codes with a status indicator of T when reported for the same patient by the Same Individual Physician, Hospital, Ambulatory Surgical Center or Other Health Care Professional on the same date of service?
	A:	No, Oxford will consider reimbursement for the code with a status indicator of T with the highest RVU and payment for the other as bundled and not separately reimbursed only when no other service reported with a status indicator of A or R. If reported with another service with a status indicator of A or R, Oxford will bundle both codes with a status indicator of T into the reimbursement for the payable service code and will not be separately reimbursed.
