## Coverage Guidelines

Cosmetic or reconstructive surgery is covered when Medicare criteria are met.

### General Coverage Guidelines

Reconstructive surgery is surgery performed on abnormal structures of the body, caused by congenital defects, developmental abnormalities, trauma, tumors, or disease. Reconstructive surgery is generally performed to improve function, but may also be done to approximate normal appearance. Refer to multiple LCDs for Cosmetic and Reconstructive Surgery at <https://www.cms.gov/medicare-coverage-database/new-search/search.aspx>. (Accessed August 23, 2021)

Cosmetic Surgery is surgery performed to reshape normal structures of the body to improve the patient's appearance and self-esteem. Refer to multiple LCDs for Cosmetic and Reconstructive Surgery at <https://www.cms.gov/medicare-coverage-database/new-search/search.aspx>. (Accessed August 23, 2021)

Cosmetic surgery or expenses incurred in connection with such surgery is not covered. Cosmetic surgery is only covered when required for the prompt (i.e., as soon as medically feasible) repair of accidental injury or for the improvement of the functioning of a malformed body member. For example, this exclusion does not apply to surgery in connection with treatment of severe burns or repair of the face following a serious automobile accident, or to surgery for therapeutic purposes which coincidentally also serves some cosmetic purpose. The condition giving rise to the patient's preoperative appearance is generally not a consideration. The only exception to the exclusion is surgery for the prompt repair of an accidental injury or for the improvement of a malformed body member which coincidentally serves some cosmetic purpose. Since surgery to correct a condition of "moon face" which developed as a side effect of cortisone therapy does not meet the exception to the exclusion, it is not covered under Medicare. Refer to the [NCD for Plastic Surgery to Correct "Moon Face" \(140.4\)](#). (Accessed April 2, 2021)

### ***Gender Dysphoria Treatment***

There is an [NCD for Gender Dysphoria and Gender Reassignment Surgery \(140.9\)](#) which states that CMS determined that no NCD is appropriate at this time for gender reassignment surgery for Medicare beneficiaries with gender dysphoria and coverage determination will continue to be made by the local Medicare Administrative Contractors (MACs) on a case-by-case basis.

Physicians and patients should not rely on this information in making health care decisions. Physicians and patients must exercise their independent clinical discretion and

judgment in determining care. Each benefit plan contains its own specific provisions for coverage, limitations, and exclusions as stated in the Member's Evidence of Coverage (EOC)/Summary of Benefits (SB). If there is a discrepancy between this policy and the member's EOC/SB, the member's EOC/SB provision will govern. The information contained in this document is believed to be current as of the date noted.

The benefit information in this Coverage Summary is based on existing national coverage policy; however, Local Coverage Determinations (LCDs) may exist and compliance with these policies are required where applicable.

There are instances where this document may direct readers to a UnitedHealthcare Commercial Medical Policy, Medical Benefit Drug Policy, and/or Coverage Determination Guideline (CDG). In the absence of a Medicare National Coverage Determination (NCD), Local Coverage Determination (LCD), or other Medicare coverage guidance, CMS allows a Medicare Advantage Organization (MAO) to create its own coverage determinations, using objective evidence-based rationale relying on authoritative evidence ([Medicare IOM Pub. No. 100-16, Ch. 4, §90.5](#)).
