o. **Surgery to Correct Moon Face**

The cosmetic surgery exclusion precludes payment for any surgical procedure directed at improving appearance. The condition giving rise to the patient's preoperative appearance is generally not a consideration. The only exception to the exclusion is surgery for the prompt repair of an accidental injury or for the improvement of a malformed body member which coincidentally serves some cosmetic purpose. Since surgery to correct a condition of "moon face" which developed as a side effect of cortisone therapy does not meet the exception to the exclusion, it is **not covered** under Medicare. See the *NCD for Plastic Surgery to Correct "Moon Face" (140.4).* (Accessed April 5, 2017)

p. **Gender Dysphoria Treatment**

- There is an *NCD for Gender Dysphoria and Gender Reassignment Surgery (140.9)* which states that CMS determined that no NCD is appropriate at this time for gender reassignment surgery for Medicare beneficiaries with gender dysphoria and coverage determination will continue to be made by the local Medicare Administrative Contractors (MACs) on a case-by-case basis.

  As indicated in the above-referenced instruction, in the absence of an NCD, CMS contractors and adjudicators should consider whether any Medicare claims for these
items and services are reasonable and necessary under § 1862(a)(1)(A) of the Social Security Act consistent with existing guidelines for making such decisions when there is no NCD.

For calendar year 2015, CMS determined that these items and services met the significant cost test, as specified in 42 C.F.R. § 422.109(a)(2). Therefore, for items and services received in calendar year 2015 only, original fee-for-service Medicare will pay for reasonable and necessary items and services obtained by beneficiaries enrolled in MA plans.

Consistent with §1862(a)(1)(A) of the Act, Medicare Administrative Contractors will consider whether transgender surgery services are reasonable and necessary and reimbursable by original Medicare for Medicare beneficiaries enrolled in MA plans in 2015.

- For 2016 calendar year, UnitedHealthcare Medicare Advantage will determine coverage of transgender surgery by individual consideration.
- On August 30, 2016, CMS issued the following decision: The Centers for Medicare & Medicaid Services (CMS) is not issuing a National Coverage Determination (NCD) at this time on gender reassignment surgery for Medicare beneficiaries with gender dysphoria because the clinical evidence is inconclusive for the Medicare population. See the Decision Memo for Gender Dysphoria and Gender Reassignment Surgery (CAG-00446N), (Accessed April 5, 2017)

q. Light and Laser Therapy for Rosacea and Rhinophyma
   - Medicare does not have a National Coverage Determination (NCD) for light and laser therapy for rosacea and rhinophyma.
