Policy

Overview

An Assistant-at-Surgery actively assists the Physician performing a surgical procedure. Reimbursement for Assistant-at-Surgery services, when reported by the Same Individual Physician or Other Qualified Health Care Professional, is based
on whether the Assistant Surgeon is a Physician (designated by modifiers 80, 81 or 82) or another Health Care Professional (designated by modifier AS) acting as the surgical assistant.

Only one Assistant-at-Surgery for each procedure with an Indicator of 2 on the National Physician Fee Schedule (NPFS) is a reimbursable service. No exceptions to this policy are made for teaching hospitals or hospital bylaws.

**Reimbursement Guidelines**

**Multiple Procedures**

If an Assistant-at-Surgery submits multiple procedure codes, multiple procedure reductions will apply.

**Assistant-at-Surgery**

The Assistant-at-Surgery is based on the Centers for Medicare and Medicaid Services (CMS) NPFS payment policy indicators.

**CMS Definition of Assistant at Surgery Indicator “2”**

2 = Payment restriction for Assistants-at-Surgery does not apply to this procedure. Assistant-at-Surgery may be paid.

All codes in the NPFS with the payment code indicator "2" for “Assistant-at-Surgery” are considered by UnitedHealthcare Medicare Advantage to be reimbursable for Assistant-at-Surgery services, as indicated by an assistant surgeon modifier (80, 81, 82, or AS).

All codes in the NPFS with the status code indicator “1” for "Assistant Surgeons" are considered by UnitedHealthcare Medicare Advantage to not be reimbursable for Assistant Surgeon services, as indicated by an Assistant Surgeon or surgical assistant modifier (80, 81, 82, or AS), and will not be allowed for payment.

All codes in the NPFS with the status code indicator "0" for "Assistant Surgeons" are considered by UnitedHealthcare Medicare Advantage to be conditionally reimbursable for Assistant Surgeon services, as indicated by an Assistant Surgeon or surgical assistant modifier (80, 81, 82, or AS), and will be reviewed with clinical documentation for Assistant-at-Surgery eligibility.

**Physicians (MD/DO)**

UnitedHealthcare’s Medicare Advantage standard reimbursement for Assistant-at-Surgery services performed by a Physician is 16% of the Allowable Amount for eligible surgical procedures. This percentage is based on CMS.

Assistants-at-Surgery who are Physicians should submit the identical procedure code(s) as the primary surgeon with one of the following modifiers 80, 81 or 82 to represent their service(s).

**Health Care Professionals**

UnitedHealthcare’s Medicare Advantage standard reimbursement for Assistant-at-Surgery services provided by a Health Care Professional other than a Physician (i.e., Physician Assistants (PA), Nurse Practitioners (NP) or Clinical Nurse Specialists (CNS) is 16% of the Allowable Amount for the surgical procedures. This percentage is based on CMS.

Assistants-at-Surgery who are Health Care Professionals should submit the identical procedure code(s) as the primary surgeon with the following modifier AS to represent that a PA, NP or CNS served as the Assistant-at-Surgery. Per CMS claims processing manual guidelines, surgical technicians are not listed as a health care practitioner that can report modifier AS. The services of a surgical technician assisting at surgery are included in the reimbursement to the facility and not separately reimbursable.

Other categories of nonphysician practitioners are not recognized as Medicare providers and thus are not able to bill the program independently for their services. Medicare cannot reimburse an Assistant-at-Surgery’s services if the assistant is an unlicensed practitioner and does not qualify to be a Medicare provider.
