

## Modifier Reference Policy, Professional

### **IMPORTANT NOTE ABOUT THIS REIMBURSEMENT POLICY**

You are responsible for submission of accurate claims. This reimbursement policy is intended to ensure that you are reimbursed based on the code or codes that correctly describe the health care services provided. UnitedHealthcare Community Plan reimbursement policies use Current Procedural Terminology (CPT®\*), Centers for Medicare and Medicaid Services (CMS) or other coding guidelines. References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement.

This reimbursement policy applies to all health care services billed on CMS 1500 forms and, when specified, to those billed on UB04 forms. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design, and other factors are considered in developing reimbursement policy.

This information is intended to serve only as a general reference resource regarding UnitedHealthcare Community Plan's reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Accordingly, UnitedHealthcare Community Plan may use reasonable discretion in interpreting and applying this policy to health care services provided in a particular case. Further, the policy does not address all issues related to reimbursement for health care services provided to UnitedHealthcare Community Plan enrollees.

**Other factors affecting reimbursement supplement, modify or, in some cases, supersede this policy. These factors include but are not limited to federal &/or state regulatory requirements, the physician or other provider contracts, the enrollee's benefit coverage documents, and/or other reimbursement, medical or drug policies.**

Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare Community Plan due to programming or other constraints; however, UnitedHealthcare Community Plan strives to minimize these variations.

UnitedHealthcare Community Plan may modify this reimbursement policy at any time by publishing a new version of the policy on this Website. However, the information presented in this policy is accurate and current as of the date of publication.

### Policy

#### Overview

According to the American Medical Association (AMA) and the Centers for Medicare and Medicaid Services (CMS), a modifier provides the means to report or indicate that a service or procedure that has been performed has been altered by some specific circumstance but not changed in its definition or code. It may also provide more information about a service such as it was performed more than once, unusual events occurred, or it was performed by more than one physician and/or in more than one location.

This document is a reference tool to guide readers to reimbursement policies in which modifiers are addressed. For complete information, please refer to the specific reimbursement policy that pertains to your coding situation.

For information on UnitedHealthcare Community Plan Medicaid reimbursement percentages, please reference the Modifier Reimbursement Grid in the Attachments Section.

For information regarding the appropriate use of modifiers with individual CPT and HCPCS procedure codes refer to the Procedure to Modifier Policy.

Note: The lists below represent modifiers that are addressed in UnitedHealthcare Community Plan reimbursement policies. It is not an all-inclusive list of CPT and HCPCS modifiers.
