IMPORTANT NOTE ABOUT THIS REIMBURSEMENT POLICY

You are responsible for submission of accurate claims. This reimbursement policy is intended to ensure that you are reimbursed based on the code or codes that correctly describe the health care services provided. UnitedHealthcare Community Plan reimbursement policies use Current Procedural Terminology (CPT®), Centers for Medicare and Medicaid Services (CMS) or other coding guidelines. References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement.

This reimbursement policy applies to all health care services billed on CMS 1500 forms and UB04 forms. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design and other factors are considered in developing reimbursement policy.

This information is intended to serve only as a general reference resource regarding UnitedHealthcare Community Plan’s reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Accordingly, UnitedHealthcare Community Plan may use reasonable discretion in interpreting and applying this policy to health care services provided in a particular case. Further, the policy does not address all issues related to reimbursement for health care services provided to UnitedHealthcare Community Plan enrollees.

Other factors affecting reimbursement supplement, modify or, in some cases, supersede this policy. These factors include, but are not limited to: federal &/or state regulatory requirements, the physician or other provider contracts, the enrollee’s benefit coverage documents, and/or other reimbursement, medical or drug policies.

Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare Community Plan due to programming or other constraints; however, UnitedHealthcare Community Plan strives to minimize these variations.

UnitedHealthcare Community Plan may modify this reimbursement policy at any time by publishing a new version of the policy on this Website. However, the information presented in this policy is accurate and current as of the date of publication.

UnitedHealthcare Community Plan uses a customized version of the Optum Claims Editing System known as iCES Clearinghouse to process claims in accordance with UnitedHealthcare Community Plan reimbursement policies.

Application

This reimbursement policy applies to UnitedHealthcare Community Plan Medicaid and Medicare products.

This reimbursement policy applies to services reported using the UB-04 Form, the 1500 Health Insurance Claim Form (a/k/a CMS-1500) or their electronic equivalents or their successor forms. This policy applies to all products, all network and non-network providers, including, but not limited to, non-network authorized and percent of charge contract hospitals, ambulatory surgical centers, physicians and other qualified health care professionals.

History

Policy

Overview

This policy describes the National Drug Code information that is required on professional drug claims and hospital outpatient facility claims that are reported for reimbursement.

National Drug Code (NDC) numbers are the industry standard identifier for drugs and provide full transparency to the medication administered. The NDC number identifies the manufacturer, drug name, dosage, strength, package size and quantity.

For purposes of this policy, a valid NDC number, NDC unit of measure and NDC units dispensed for the drug administered will be required for reimbursement of professional drug claims on a 1500 Health Insurance Claim Form (a/k/a CMS-1500) or the 837 professional transaction and hospital outpatient facility drug claims on a UB-04 Health Insurance Claim Form or 837i institutional transaction.

Reimbursement Guidelines

The NDC is a unique numeric identifier assigned to medications listed under Section 510 of the United States Federal Food, Drug and Cosmetic Act. The 11-digit NDC is separated into three segments in a 5-4-2 format. They are as follows:

- The first five digits identify the manufacturer of the drug and are assigned by the Food and Drug Administration (FDA).
- The remaining 6 digits are assigned by the manufacturer and identify the specific product and package size.

Sometimes the NDC on the label does not include the 11 digits. If this occurs, it will be necessary to add a leading zero to the appropriate section to create a 5-4-2 configuration (i.e. 66733-0948-23 in the following sample). A valid NDC without spaces or hyphens should be placed on the medical claim. The NDC submitted must be the actual valid NDC number on the container from which the medication was administered.

XXXX-XXXX-XX = 0XXXX-XXXX-XX
XXXXXXX-XX=XXXXX-0XXX-XX
XXXXXXX-XXX=XXXXX-XXXX-0X

NDC Unit of Measure (UOM)

<table>
<thead>
<tr>
<th>UOM</th>
<th>Description</th>
<th>General Guidelines</th>
</tr>
</thead>
<tbody>
<tr>
<td>F2</td>
<td>International unit</td>
<td>International units will mainly be used when billing for Factor VIII-Antihemophilic Factors</td>
</tr>
<tr>
<td>GR</td>
<td>Gram</td>
<td>Grams are usually used when an ointment, cream, inhaler, or bulk powder in a jar are dispensed. This unit of measure will primarily be used in the retail pharmacy setting and not for physician-administered drug billing.</td>
</tr>
<tr>
<td>ML</td>
<td>Milliliter</td>
<td>If a drug is supplied in a vial in liquid form, bill in millimeters.</td>
</tr>
<tr>
<td>UN</td>
<td>Unit</td>
<td>If a drug is supplied in a vial in powder form, and must be reconstituted before administration, bill each vial (unit/each) used.</td>
</tr>
</tbody>
</table>
NDC Units Dispensed
The actual decimal quantity administered and the units of measurement are required on the claim. If reporting a partial unit, use a decimal point (i.e. if three 0.5 vials are dispensed.

- GR0.045
- ML1.5
- UN2.0

The number of digits for the quantity is limited to eight digits before the decimal and three digits after the decimal. If entering a whole number, do not use a decimal. Do not use commas. Do not zero fill, leave remaining positions blank. Please refer to the following examples:

- 1234.56
- 2
- 12345678.123

Requiring the NDC information will differentiate drugs that share the same HCPCS/CPT codes for drug preferences and enhance reimbursement processes.

A valid NDC number, NDC unit of measure and NDC units dispensed for the drug administered will be required on all HCPCS/CPT drug codes.

If the NDC information is missing, invalid or incomplete the claim may be denied. If the claim is denied, it can be resubmitted with the appropriate NDC information for reconsideration of reimbursement.

Maximum Units per Package

Units submitted for a drug should not exceed the package maximum units available based on the NDC number or in increments associated with the drug package. Maximum units will be applied for specific drugs where a specific and standard number of units should be submitted per the NDC of the package.

When units submitted exceed the maximum units allowed per package or when units submitted are not in increments of the package, the units over the maximum unit will be denied.

State Exceptions

<table>
<thead>
<tr>
<th>State</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arizona</td>
<td>Arizona Medicaid utilizes a state specific NDC list, and has exception to policy for both professional and outpatient facility claims.</td>
</tr>
<tr>
<td>California</td>
<td>California has an exception to the hospital outpatient NDC editing portion of NDC reimbursement policy and a valid NDC number not required for vaccine codes</td>
</tr>
</tbody>
</table>
Florida | Valid NDC number not required for vaccine codes
---|---
Hawaii | Valid NDC number not required for vaccine codes
Kansas | Valid NDC number not required for vaccine codes
Maryland | Valid NDC number not required for vaccine codes
Massachusetts | Valid NDC Number not required for vaccine codes
Michigan | Michigan has an exception to the hospital outpatient NDC editing portion of NDC reimbursement policy and a valid NDC number not required for vaccine codes.
Mississippi | Valid NDC number not required for vaccine codes
Missouri | Valid NDC number not required for vaccine codes
Nebraska | Valid NDC number not required for vaccine codes
New Jersey | Valid NDC number not required for vaccine codes
New Mexico | Valid NDC number not required for vaccine codes
New York | Valid NDC number not required for vaccine codes
Pennsylvania | Valid NDC number not required for vaccine codes
Tennessee | Valid NDC number not required for vaccine codes
Texas | Valid NDC number not required for vaccine codes
Virginia | Valid NDC number not required for vaccine codes
Washington | Valid NDC number not required for vaccine codes
Wisconsin | Valid NDC number not required for vaccine codes

Questions and Answers

1. **Q:** Do I have to bill the NDC information in addition to the HCPCS/CPT codes?  
   **A:** Yes, the NDC information must be submitted in addition to the applicable HCPCS or CPT code(s) and the number of HCPCS/CPT units

2. **Q:** Are the NDC units different from the HCPCS/CPT units?  
   **A:** Yes. The units submitted for HCPCS/CPT codes are based on the HCPCS/CPT code description. The NDC units dispensed are based upon the numeric quantity administered to the patient and the NDC unit of measure.

3. **Q:** If the medication comes in a box with multiple vials, should I use the NDC number on the box or the NDC number on the individual vial?  
   **A:** The NDC required is from the vial that was administered to the member along with the appropriate NDC unit of

History

4/21/2020  Policy Update: Verbiage change in Overview, removed space between 837 I and I and added Health Insurance Claim Form
Policy Version change from 2020R6002B to 2020R6002C

Changed Policy Version from 2020R6002A to 2020R6002B
State exceptions section: Removed reference to Louisiana

3/01/2020  Policy Update:  Section: Reimbursement Guidelines, added Maximum Units per NDC Number of a Package

10/07/2019  State Exceptions Section: Added WA and state verbiage: Valid NDC number not required for vaccine codes

1/25/2019  Version Change: Definitions section deleted

1/1/2019  Annual Policy Version Change

11/14/2018  Policy Approval Date Changed (No new version)

7/01/2018  State Exceptions Section: Corrected MI state exception verbiage to read Michigan instead of Missouri

3/22/2018  Updated policy to include hospital outpatient facility NDC editing information, State Exceptions Section: Added CA and MO as exceptions to hospital outpatient facility NDC editing, updated AZ to include exception to hospital outpatient facility NDC editing, added “Valid NDC number not required” for the following states: CA, HI, KS, LA, MA, MD, MI, MO, NM, NY, PA, TX, VA.

2/22/2018  State Exceptions Section: Removed Washington as exception as a valid NDC number is required for vaccines

1/1/2018  Policy Overview Section: Removed valid NDC numbers are not required for vaccines
State Exceptions Section: Added exceptions for Mississippi, New Jersey, Florida, Washington, Wisconsin, Tennessee, and Nebraska, for exclusion of valid NDC numbers for vaccine codes
Annual Policy Version Change

5/1/2017  Policy implemented by UnitedHealthcare Community & State
State Exceptions Section: Added exception for Arizona Medicaid

12/14/2016  Policy approved by the Payment Policy Oversight Committee
