#### **Application**

This reimbursement policy applies to services reported using the 1500 Health Insurance Claim Form (a/k/a CMS-1500) or its electronic equivalent or its successor form. This policy applies to all products, all network and non-network physicians and other qualified health care professionals, including, but not limited to, non-network authorized and percent of charge contract physicians and other qualified health care professionals.

##### **Overview**

Certain Current Procedural Terminology (CPT®) and Healthcare Common Procedure Coding System (HCPCS) code descriptions support reimbursement only once during the Defined Treatment Period. Per CPT, these codes include treatment at one or more sessions that may occur at different patient encounters. These codes should only be reported once during the Defined Treatment Period unless reported with an appropriate modifier.

For the purposes of this policy, the Same Physician or Other Health Care Professional includes physicians and/or other health care professionals of the same group and same specialty reporting the same Federal Tax Identification number.

##### **Reimbursement Guidelines**

UnitedHealthcare Community Plan will reimburse a Current Procedural Terminology (CPT®) and Healthcare Common Procedure Coding System (HCPCS) code only once during the Defined Treatment Period.

The Defined Treatment Period mirrors the National Physician Fee Schedule (NPFS) global fee period.

[National Physician Fee Schedule](#)

Multiple submissions of the same Current Procedural Terminology (CPT®) and Healthcare Common Procedure Coding System (HCPCS) code by the Same Physician or Other Health Care Professional for the same patient during the Defined Treatment Period will be denied as part of the global service unless an appropriate modifier is reported.

Services addressed in the One or More Sessions Policy may also be subject to global surgical package guidelines. Please refer to the Global Days policy for additional information.

**Modifiers**

Modifiers offer the physician or healthcare professional a way to identify that a service or procedure has been altered in some way. Under appropriate circumstances, modifiers should be used to identify unusual circumstances, staged or related procedures, distinct procedural services, or separate anatomical location(s).

UnitedHealthcare Community Plan recognizes the following designated modifiers, when appropriately reported, under this reimbursement policy:

LT	RT	50	52	53	54	55	56	79
----	----	----	----	----	----	----	----	----

**State Exceptions**

<b>Indiana</b>	Per state regulations, Indiana does not recognize modifier 56.

**Definitions**

<b>Same Specialty Physician or other Qualified Health Care Professional</b>	Physicians and/or other qualified health care professionals of the same group and same specialty reporting the same Federal Tax Identification number.
<b>Defined Treatment Period</b>	The timeframe that corresponds with the global fee period assigned to a code on the National Physician Fee Schedule Relative Value File. The global fee period is the number of days during which all necessary services normally furnished by a physician (before, during, and after the procedure) are included in the reimbursement for the procedure performed.

**Questions and Answers**

<b>1</b>	<p><b>Q:</b> What happens if the Same Physician or Other Qualified Health Care Professional had to discontinue or reduce the first surgery, but was able to complete the surgery the second time within the same Defined Treatment Period?</p> <p><b>A:</b> If the first surgical procedure was reported with a modifier 52 or 53, upon submission of a second unmodified global code within the same Defined Treatment Period, the partial reimbursement will be adjusted, and the global code will be reimbursed.</p>
<b>2</b>	<p><b>Q:</b> What happens if the Same Physician or Other Health Care Professional performs the surgery on one eye then performs the surgery on the other eye two weeks later (within the same Defined Treatment Period)?</p>

	<b>A:</b> In this case, it is critical that the anatomic modifiers (LT and/or RT) be used appropriately to indicate the eye upon which the surgery was performed with each submission. The subsequent procedure will be considered for reimbursement when appropriate modifiers are reported.
<b>3</b>	<b>Q:</b> What happens if a different surgeon performs subsequent surgeries in the same Defined Treatment Period?  <b>A:</b> If the Same Specialty Physician or Other Health Care Professional is reporting with the same Federal Tax Identification number (TIN), subsequent surgeries will be denied within the same Defined Treatment Period. If the physician or other health care professional is a different specialty and/or different TIN, subsequent surgeries will be considered for reimbursement.
<b>4</b>	<b>Q:</b> When does the Defined Treatment Period of a procedure begin and end?  <b>A:</b> The Defined Treatment Period begins the day of the procedure and then 10 or 90 days before the procedure and following the procedure, beginning the first day of the procedure. Example: A procedure having a Defined Treatment Period of 90 days is performed on 10/1. Procedures reported on 10/1 and during the 90-day treatment period before and after (7/3 through and including 12/30) are included in the treatment period.
