References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement.*

*This reimbursement policy applies to all health care services billed on CMS 1500 forms and, when specified, to those billed on UB04 forms. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design and other factors are considered in developing reimbursement policy.*

### Application

**This reimbursement policy applies to UnitedHealthcare Community Plan Medicaid products.**

This reimbursement policy applies to services reported using the 1500 Health Insurance Claim Form (a/k/a CMS-1500) or its electronic equivalent or its successor form. This policy applies to all products and all network and non-network physicians and other qualified health care professionals, including, but not limited to, non-network authorized and percent of charge contract physicians and other qualified health care professionals.

### Policy

#### Overview

All codes published on the National Physician Fee Schedule (NPFs) by the Centers for Medicaid Services (CMS) are assigned a status code. The status code indicates whether the code is separately payable if the service is covered.

#### Reimbursement Guidelines

Per the public use file that accompanies the NPFs Relative Value File, the following status indicators are listed:

Status Code:	
M	Measurement codes. Used for reporting purposes only.
Q	Therapy functional information code (used for required reporting purposes only).

Consistent with CMS and in accordance with correct coding, UnitedHealthcare Community Plan will deny codes that have the CMS NPFs Relative Value File designation of status M or status Q reported on a CMS-1500 form as these are designated “for reporting purposes only.” Refer to the “Attachment” section for a complete list of codes.

### Modifiers

In accordance with the CPT book and CMS, the following modifiers have been approved and designated for use by ambulatory surgery centers (ASC) or in the outpatient hospital setting. UnitedHealthcare Community Plan will deny codes appended with these modifiers when reported by a physician or other health care professional:

27	Multiple Outpatient Hospital E/M Encounters on the Same Date
