Covered benefits are listed in three (3) Sections - A, B and C. All services must be medically necessary. Each benefit plan contains its own specific provisions for coverage, limitations and exclusions as stated in the member’s Evidence of Coverage (EOC)/Schedule of Benefits (SOB). If there is a discrepancy between this policy and the member’s EOC/SOB, the member’s EOC/SOB provision will govern.

Essential Health Benefits for Individual and Small Group
For plan years beginning on or after January 1, 2014, the Affordable Care Act of 2010 (ACA) requires fully insured non-grandfathered individual and small group plans (inside and outside of Exchanges) to provide coverage for ten categories of Essential Health Benefits (“EHBs”). Large group plans (both self-funded and fully insured), and small group ASO plans, are not subject to the requirement to offer coverage for EHBs. However, if such plans choose to provide coverage for benefits which are deemed EHBs (such as maternity benefits), the ACA requires all dollar limits on those benefits to be removed on all Grandfathered and Non-Grandfathered plans. The determination of which benefits constitute EHBs is made on a state by state basis. As such, when using this guideline, it is important to refer to the member specific benefit document to determine benefit coverage.

(4) The Legislative Assembly finds that health care cost containment is necessary and intends to encourage health insurance plans designed to achieve cost containment by ensuring that reimbursement is limited to appropriate utilization under criteria incorporated into the insurance, either directly or by reference.

(9) The Oregon Health Authority may adopt by rule an application fee or a certification fee, or both, to be imposed on any provider organization that applies for certification under subsection (7) of this section. Any fees collected shall be paid into the Oregon Health Authority Fund established in ORS 413.101 and shall be used only for carrying out the provisions of subsection (7) of this section.

(10) The intent of the Legislative Assembly in adopting this section is to reserve benefits for different types of care to encourage cost effective care and to ensure continuing access to levels of care most appropriate for the insured's condition and progress. This section does not prohibit an insurer from requiring a provider organization certified by the Oregon Health Authority under subsection (7) of this section to meet the insurer's credentialing requirements as a condition of entering into a contract.
