Prior Authorization and Notification Requirement Inquiry – by Product Type

QUICK REFERENCE

You may check to see if a Prior Authorization/Notification is required through the Prior Authorization and Notification Link tool. **Note:** This tool is not used for referrals. Referrals should be submitted through eligibilityLink.

### Get Started

1. From **UHCprovider.com**, click **Link** and sign in

![Image](image1.png)

2. Select **Prior Authorization and Notification**

![Image](image2.png)

3. The first time you access this self-service tool, you must select the Care Provider you represent from the pull-down menus then click **Continue**.

![Image](image3.png)

### Check if a Prior Authorization is Required

1. Select **Check if Prior Authorization is required using Product Type, State and Procedure Code**

![Image](image4.png)

**Note:** The Provider Information will default to the last chosen, but you may change the provider by clicking **Select a Different Provider**.
Complete the Form

Choose the **Product Type** from the pull-down menu

Choose the **State** from the pull-down menu

Enter at least the first 3 characters of a **Procedure Code** and select from the drop-down menu

Once complete, select **Continue**
Response

Review the Response

Proceed With Submission, if desired

NOTE: For some requests, you may be redirected to another place, such as the Radiology, Cardiology and Oncology tool in this example.
