

UnitedHealthcare Pharmacy  
Clinical Pharmacy Programs

Program Number	2021 P 1021-9
Program	Prior Authorization/Notification
Medication	Cometriq® (cabozantinib)
P&T Approval Date	02/2013, 07/2013, 8/2014, 8/2015, 6/2016, 6/2017, 6/2018, 6/2019, 6/2020, 6/2021
Effective Date	9/1/2021; Oxford only: 9/1/2021

**1. Background:**

Cometriq® (cabozantinib) is a kinase inhibitor indicated for the treatment of patients with progressive, metastatic medullary thyroid cancer (MTC).<sup>1</sup>

In addition, the National Cancer Comprehensive Network (NCCN) recommends Cometriq for the treatment of medullary, follicular, Hürthle and papillary thyroid carcinomas. NCCN also recommends Cometriq for the treatment of non-small cell lung cancer (NSCLC) with RET gene rearrangement.<sup>2</sup>

**Coverage Information:**

Members will be required to meet the criteria below for coverage. For members under the age of 19 years, the prescription will automatically process without a coverage review.

Some states mandate benefit coverage for off-label use of medications for some diagnoses or under some circumstances. Some states also mandate usage of other Compendium references. Where such mandates apply, they supersede language in the benefit document or in the notification criteria.

**2. Coverage Criteria:**

**A. Patients less than 19 years of age**

1. Cometriq will be approved based on the following criterion:

- a. Patient is less than 19 years of age

**Authorization will be issued for 12 months.**

**B. Thyroid Carcinoma**

1. **Initial Authorization**

- a. Cometriq will be approved based on the following criterion:

(1) **One** of the following:

(a) Diagnosis of medullary carcinoma

**-OR-**

(b) **All** of the following:

i. Diagnosis of **one** of the following:

- Follicular carcinoma
- Hürthle cell carcinoma
- Papillary carcinoma

**-AND-**

ii. Clinical trials or other systemic therapies are not available or appropriate.

**-AND-**

iii. Disease is at least **one** of the following:

- Progressive
- Symptomatic iodine-refractory
- Unresectable locoregional recurrent or persistent disease
- Distant metastatic disease

**Authorization will be issued for 12 months.**

## **2. Reauthorization**

a. **Cometriq** will be approved based on the following criterion:

- (1) Patient does not show evidence of progressive disease while on Cometriq therapy

**Authorization will be issued for 12 months.**

## **C. Non-Small Cell Lung Cancer (NSCLC)**

### **1. Initial Authorization**

a. **Cometriq** will be approved based on **both** of the following criteria:

- (1) Diagnosis of non-small cell lung cancer (NSCLC)

**-AND-**

- (2) Positive for RET gene rearrangements

**Authorization will be issued for 12 months.**

**2. Reauthorization**

a. **Cometriq** will be approved based on the following criterion:

- (1) Patient does not show evidence of progressive disease while on Cometriq therapy

**Authorization will be issued for 12 months.**

**3. Additional Clinical Rules:**

- Notwithstanding Coverage Criteria, UnitedHealthcare may approve initial and re-authorization based solely on previous claim/medication history, diagnosis codes (ICD-10) and/or claim logic. Use of automated approval and re-approval processes varies by program and/or therapeutic class.
- Supply limits may be in place.
