Out-of-network services
A recommendation from a network physician or health care provider to a hospital, physician or other health care provider who isn't contracted with Preferred Care Network (formerly Medica HealthCare) and/or Preferred Care Partners.

Note: Your agreement with Preferred Care Network (formerly Medica HealthCare) or Preferred Care Partners may include restrictions on directing members outside of the network. Your patients who use non-network physicians, health care professionals or facilities may have increased out-of-pocket expenses or no coverage.

Advance notification is required for Preferred Care Network (formerly Medica HealthCare) and Preferred Care Partners) members when:

A network physician or health care professional directs a member to an out-of-network facility, physician or other health care provider and the member's benefit plan doesn't include benefits for out-of-network services. Or, you want to request in-network cost sharing or a benefit level because there are no available in-network care providers for the type of specialty services needed.
