

Multi-TIN access allows the Password Owner of a provider, business vendor or revenue cycle management company (RCM) to request access to Tax IDs and tie them together, allowing for the creation of One Healthcare IDs (formerly Optum ID) that can access multiple Tax IDs.

[Login to Link Security](#)

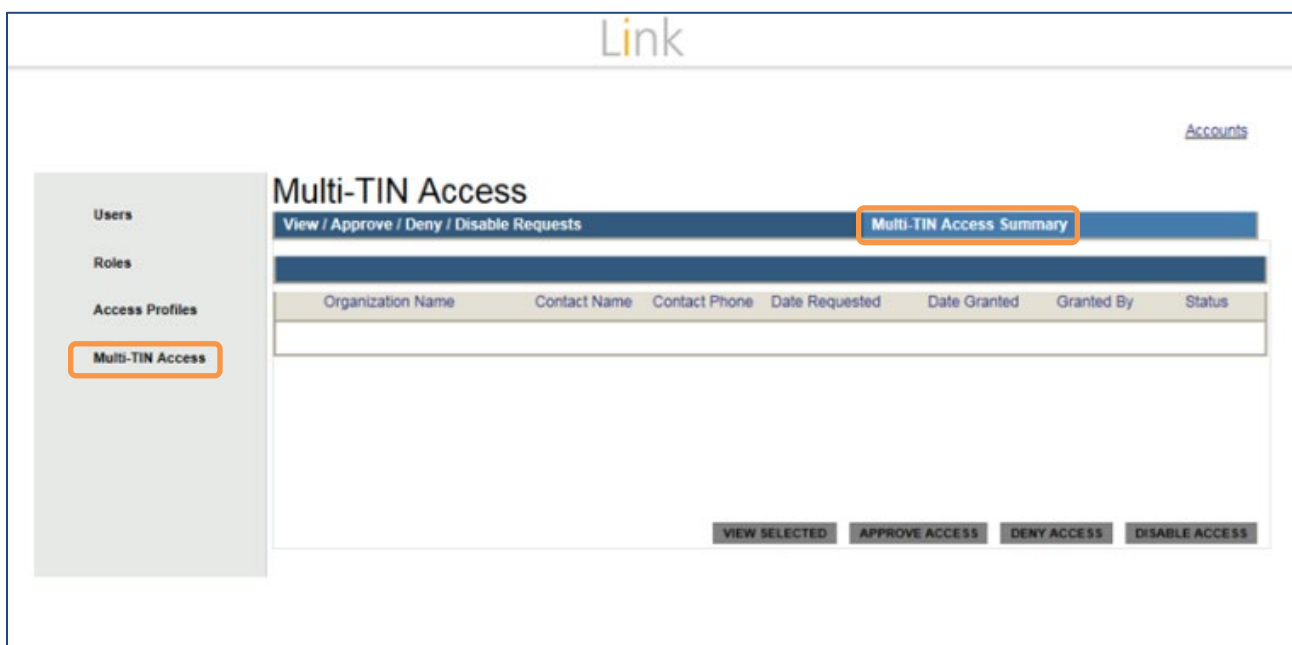

1. From UHCprovider.com, click Sign In.
2. Enter your One Healthcare ID and password, then Sign In.
3. Please take a few moments to read and accept the One Healthcare ID Terms of Use if you have not already done so.
4. From your dashboard, open Link Security. Only Password Owners and ID Administrators will have access to Link Security. Please take a moment to review and accept the User Management Terms of Use Agreement if you have not already done so.

NOTE: Multi-TIN access can only be requested by Password Owners, though other features of this tool are also available to ID Administrators.

[Multi-TIN Access](#)

1. Select Multi-TIN Access from the left menu bar
2. Then choose Multi-TIN Access Summary

[Requesting Access to a TIN](#)

1. Click the Request Access button at the bottom

REQUEST ACCESS

2. Enter the Provider's Tax ID, Zip Code and Contact Name (should be someone who manages access to the Tax ID and who can grant approval of the access request). Repeat for each Tax Identification Number you need to access and tie together or use the Import Multiple TINs feature instead.

Request Multi-TIN Access	
* Indicates Required Field	
* Physician/Provider Tax ID:	<input type="text"/>
* Physician/Provider Zip Code:	<input type="text"/>
Contact First Name:	<input type="text"/>
Contact Last Name:	<input type="text"/>

3. Click the Submit button to complete the request or Cancel to start over.
4. A USPS letter will be mailed to the contact specified. The provider can approve the request online, call UnitedHealthcare Web Support or pass the information along to the requestor to complete the activation process.
5. An email will be sent to the requestor to let them know their access has been approved or denied.

NOTE: An RCM Password Owner will not be able to utilize digital solutions on the UnitedHealthcare Provider Portal or set up additional users until the requested access to a Tax ID has been granted.

[Requesting Multi-TIN Access – Import Multiple TINs](#)

1. Click Import Multiple TINs.
2. Follow instructions to import a file. The spreadsheet will request tax ID numbers, Physician Zip Code, Contact first and last name.
3. Once the file has been uploaded, you will get notification that the file has been received. It will be processed within 24 hours and you will get an email after it has completed.
 - a. If any errors are detected, the email will offer specific information to correct the error for that entry.
 - b. The Password Owner(s) of the Tax IDs you have submitted must approve the access you have requested.

Requesting Multi-TIN Access – Import Multiple TINs (continued)

Multi-TIN Import

Import File:

1. Download the template file to your computer.
2. Enter the TIN data into the spreadsheet.
3. Save the file as type .xlsx to your computer.
4. Select and attach the file.
5. Select the SUBMIT button to import the list.
