

**UnitedHealthcare's Coverage Policy for DermACELL®**

In response to recent inquiries, we have clarified our original *Skin and Soft Tissue Substitutes* medical policy, number 2018T0592B. This policy includes our coverage guidelines for human Acellular Dermal Matrix (hADM), including DermACELL.

UnitedHealthcare made an adjustment to our policy as it relates to DermACELL. The *Skin and Soft Tissue Substitutes* policy will now include coverage when DermaCELL is used for breast reconstruction post mastectomy procedures. The policy related to breast reconstructive post mastectomy procedure has also been updated.

The updated policy will available after Nov. 1 at [UHCprovider.com](http://UHCprovider.com) > Menu > Policies and Protocols > Commercial Policies > UnitedHealthcare Commercial Medical & Drug Policies and Coverage Determination Guidelines.
