

UHCareConnect on Link: Clinical Profile Is Now Available for UnitedHealthcare Medicare Advantage Plan Members

The online tool you can depend on to track and manage your patients' progress throughout their care journey now includes Clinical Profiles for UnitedHealthcare Medicare Advantage plan members. This allows you to view all claims-based information for a member on a single screen.

Accessing Clinical Profiles in UHCareConnect

1. Go to **UHCprovider.com** and click on the [Link](#) button in the upper right corner to sign in with your Optum ID.
2. Open UHCareConnect on your Link dashboard.
3. From any of the modules (except High Risk Management Roster), click the person icon to view details of a patient's health record.

How is the Member Clinical Profile beneficial to my practice?

The Member Clinical Profile includes insight into the patient's care that may not be available on your electronic medical record. Information considered to be of a sensitive nature will not be visible.

Resources

- Go to UHCprovider.com/path > Medicare Advantage PATH Resources for more information about UHCareConnect.
- For an UHCareConnect User Guide, click the FAQ button in the tool.

To register for Link, go to UHCprovider.com/newuser. If you have questions, please call the UnitedHealthcare Connectivity Help Desk at **866-842-3278, option 1**, from 7 a.m. to 9 p.m. Central Time, Monday through Friday.
