UnitedHealthcare Home Health and Hospice Telehealth Services:
Care Provider Billing Guidance

COVID-19

The following scenarios are intended as a guide to help you understand how UnitedHealthcare will reimburse home health telehealth services during the COVID-19 national emergency period.

Providers are responsible for accurate claim submissions in accordance with state and federal laws and UnitedHealthcare's reimbursement policies. The scenarios are not intended to cover every telehealth service you may perform during the COVID-19 national emergency period. As such, please see UHCprovider.com and UnitedHealthcare's reimbursement policies for Medicare Advantage, Medicaid and Individual and fully insured Group Market health plans. Medicaid state-specific coding may apply and differ from those illustrated in these examples.

Information current as of June 26, 2020.

Medicaid state-specific rules and other state regulations may apply. For Medicaid and other state-specific regulations, please refer to your specific state's UnitedHealthcare Community Plan website. For more details, see UHCprovider.com/covid19.
