

Telehealth Services for Preventive Medicine and Applied Behavior Analysis

Preventive Medicine and Applied Behavior Analysis (ABA) codes are included as part of the temporary expansion of telehealth services as a result of the COVID-19 public health emergency. These codes are for Individual and fully insured Group Market health plan members. For Medicaid plans, codes may vary by state. Codes are not applicable for Medicare Advantage. State laws, and regulations still apply. This change is effective immediately for dates of service from March 18, 2020 through July 19, 2021. Benefits will be adjudicated and claims will be processed in accordance with the member's benefit plan and your participation agreement.
