Medication Sourcing Expansion: Outpatient Hospital Providers Only

UnitedHealthcare Commercial Plan Outpatient Medical Benefit Injectable Medication(s)

Effective April 1, 2020, outpatient hospitals must obtain additional medical benefit injectable medications from select specialty pharmacies.

This requirement is applicable for UnitedHealthcare commercial plan members including members of affiliate plans such as UnitedHealthcare of the Mid-Atlantic, Neighborhood Health Partnership and UnitedHealthcare of the River Valley. For more information, please refer to Chapter 7 in the 2020 UnitedHealthcare Administrative Guide titled, Specialty Pharmacy Requirements for Certain Specialty Medications (Commercial Plans), located here.

This requirement is applicable for UnitedHealthcare Community Plan members in Pennsylvania and Texas. For more information, please refer to the Community and State Provider Manual.

There are FAQs available at Specialty Pharmacy Requirements - Medication Sourcing Expansion FAQ. This document contains the full list of medications impacted by this protocol as well as the selected specialty pharmacies by drug.

What This Means for Outpatient Hospitals
Applicable to all outpatient hospital providers, this medication sourcing requirement requires certain medical injectable drugs to be obtained from select specialty pharmacies. Under this new requirement, members will still be able to have their treatment location of choice.

Register for a Q&A Session
Please register for at least one of the Q&A sessions so you can ask questions regarding medication sourcing and what this requirement means for you going forward. We will also preview updates to the Specialty Guidance Program prior authorization tool that will support this requirement for commercial members.
