

Deliver a better health care experience

Enhanced benefit information at the point of care

Patient Eligibility	Gaps in Care	Patient Health History	PreCheck MyScript®	Prior Authorization	Radiology Referrals	Ambulatory Surgery Center Referrals	Specialty Referrals	Lab Selection

At UnitedHealthcare, we're doing all we can to simplify the health care system for everyone. That's why we developed Point of Care Assist®, adding real-time patient information — including clinical, pharmacy, labs, prior authorization and cost transparency — to existing electronic medical records (EMRs) to make it easier for you to understand what your patients need at the point of care.

Point of Care Assist integrates patients' UnitedHealthcare health data within the EMR to provide real-time insights of their care needs, aligned to their specific member benefits and costs. This makes it easier for you to see potential gaps in care, select labs, estimate care costs and check prior authorization requirements. This results in you being able to better serve your patients and achieve better results for your practice.

The more you know, the more effective you can be

Get enhanced insights on patient needs and benefits, including information needed for lab selection

Save time and money

- Check cost information to help patients choose lower-cost care options and find UnitedHealth Premium® Care Physicians who have met quality and cost-efficient care criteria
- Check prior authorization and referral requirements in real time
- Get access to real-time, accurate information that helps reduce administrative burden and re-work

Improve patient satisfaction and results

- Increase cost transparency to improve patient satisfaction
- Improve the quality of care, which may lead to higher Consumer Assessment of Healthcare Providers and Systems (CAHPS®) scores and Medicare and Medicaid Star Ratings
- Improve your ability to meet targets and earn incentives through the Medicare Advantage Primary Care Physician Incentive Program

Together, we can make health care work better for everyone

Trust UnitedHealthcare for accurate, real-time member insights. Information is available in real time, when you need it, 24/7.

With PreCheck MyScript providing patient-specific data at the point of care, results showed:

- Greater prescribing convenience (up to **50 minutes saved** by avoiding prior authorizations)¹
- Increased cost savings (**\$225 saved** per script filled for patients)²
- Improved medication compliance (up to **4% improved** adherence for diabetes, high cholesterol and high blood pressure patients)³

1 Third-party analysis of OptumRx® claims data. September 2018–August 2019 based on 4.6 million members, 188,000 providers and 28.2 million transactions using PreCheck MyScript.
2 OptumRx Analysis of full year 2019 trial claim and production claim data. January 2019–December 2019 based on 5.2 million members, >230,000 providers and 37.8 million transactions using PreCheck MyScript.
3 OptumRx data. Measurement of PreCheck MyScript impacted scripts within the diabetes therapeutic class, the statin therapeutic class and the hypertension therapeutic class. Savings represents a pre-post methodology. Pre-period is October 2016–September 2017 and post-period is October 2017–September 2018. Population included in the measurement was continuously enrolled.
