

# Excelsior Plan Drug List

The **Excelsior Plan Drug List** is a guide within select therapeutic categories for enrollees and health care providers. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name drug to treat a condition. These preferred brand-name drugs are listed to help identify products that are clinically appropriate and cost-effective. This is not an all-inclusive list. This list includes commonly prescribed covered drugs by therapeutic class, a Quick Reference Drug List with commonly prescribed covered drugs in alphabetic order and a listing of commonly prescribed non-preferred (Level 3) or excluded drugs and their covered preferred drug options. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*.

Generally generics are subject to a Level 1 copayment<sup>1</sup>, or the lowest copayment; preferred brand drugs are subject to a Level 2 copayment, and non-preferred brand drugs are subject to a Level 3 copayment, or the highest copayment. Refer to your plan materials for specific information regarding copayment amounts.

## ENROLLEE

Your benefit plan provides you with a prescription benefit program administered by CVS Caremark®. Ask your doctor to consider prescribing, when medically appropriate, a preferred generic or a preferred brand-name drug from this list. Take this list along when you or a covered family member sees a doctor.

### Please note:

- You will be responsible for the full cost of non-formulary products that are excluded from coverage unless a request for a medical exception is approved. New prescription drug products may be subject to exclusion upon release to the market.
- Your prescription benefit plan design may alter coverage of certain products or vary copay<sup>1</sup> amounts based on the condition being treated.
- For specific information regarding your prescription benefit coverage and copay<sup>1</sup> information, please visit <https://www.empireplanrxprogram.com> or call 1-877-7-NYSHIP (1-877-769-7447).
- CVS Caremark may contact your doctor after receiving your prescription to request consideration of a drug list product or generic equivalent. This may result in your doctor prescribing, when medically appropriate, a different brand-name product or generic equivalent in place of your original prescription.
- Any brand-name drug for which a generic drug becomes available may be designated as a non-preferred drug. When a generic version is available, mandatory generic substitution will apply. In this case, use of a non-preferred product will result in you paying the applicable non-preferred copayment<sup>1</sup> plus the difference in cost between the brand-name drug and the generic, not to exceed the full retail cost of the drug (Ancillary Charge).

## HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by CVS Caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name drug is necessary, consider prescribing a brand-name drug on this list.

### Please note:

- Generics should be considered the first line of prescribing.
- The member's prescription benefit plan design may alter coverage of certain products or vary copay<sup>1</sup> amounts based on the condition being treated.
- This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage.
- The enrollee's prescription benefit plan may have a different copay<sup>1</sup> for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms
- Log in to <https://www.empireplanrxprogram.com> to check coverage and copay information for a specific medicine.

You will be responsible for the full cost of non-formulary products that are excluded from coverage unless a request for a medical exception is approved. Information on the medical exception process can be found below in the **For Your Information** section. Please check with your plan sponsor for more information.

**FOR YOUR INFORMATION: Generics should be considered the first line of prescribing.** This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. Any brand-name drug for which a generic product becomes available may be designated as a non-preferred product. Specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. The member's prescription benefit plan may have a different copay<sup>1</sup> for specific products on the list. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. Generics listed in therapeutic categories are for representational purposes only. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to <https://www.empireplanrxprogram.com> to check coverage and copay<sup>1</sup> information for a specific medicine.

**The Excelsior Plan Drug List has an additional feature called Brand for Generic (B4G)** which saves you money on certain Brand-Name drugs that have a new generic available. When advantageous to the Plan, this feature allows a Brand-Name drug to be placed on Level 1, the lowest copayment level, and the new generic equivalent to be placed on Level 3, the highest copayment level or excluded. These placements are for a limited time, typically six months, and may be revised mid-year when such changes are advantageous to The Empire Plan. You will be notified when B4G savings are available. We will also notify your pharmacist so that the lowest cost option will always be dispensed. Please refer to the Empire Plan Prescription Drug Program website at <https://www.empireplanrxprogram.com> for the most current information regarding the B4G feature.

The Empire Plan has implemented a medical exception process for prescription drugs that are excluded from the Excelsior Plan Drug List. Enrollees and their physicians must first evaluate whether covered drugs on the Excelsior Plan Drug List are appropriate alternatives. After an appropriate trial of formulary alternatives, an enrollee's physician may submit a letter of medical necessity to CVS Caremark which details the enrollee's formulary alternative trials and any other clinical documentation supporting medical necessity. The physician can fax the exception request to 1-888-487-9257. If an exception is approved, the Level 1 copay<sup>1</sup> will apply for generic drugs and the Level 3 copay (and ancillary charge, if applicable) will apply for brand-name drugs.

§ Generics are available in this class and should be considered the first line of prescribing.

<sup>A</sup> Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

\* The preferred options in this list are a broad representation within therapeutic categories of available treatment options and do not necessarily represent clinical equivalency.

**B4G** Brand for Generic medication (see note above). Brand-name product is dispensed at the generic copayment.

<sup>1</sup> Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.

<sup>2</sup> For use in patients previously treated with an HCV regimen containing an NS5A inhibitor (for genotypes 1-6) or sofosbuvir without an NS5A inhibitor (for genotypes 1a or 3).

<sup>3</sup> Long Acting Insulins - First Generation
