

# Specialty Pharmacy Requirements for UnitedHealthcare Commercial Plan Members

## Medication Sourcing requirement – All outpatient providers

Places of Service: Outpatient facility, physician office, home, ambulatory infusion

To support the care provider/patient relationship in managing rare and complex chronic conditions, we require care providers who participate in UnitedHealthcare commercial plans to follow specialty pharmacy requirements when obtaining certain specialty medications covered under the member's medical benefit. To meet the requirements, you must order certain medications from the specialty pharmacies listed in the table below.

**Please note:** The requirements do not apply to UnitedHealthcare West members.

## Medication Sourcing Expansion requirement – Outpatient hospital providers only

Effective for dates of service starting **Oct. 1, 2020**, we're expanding medication sourcing requirements to apply to additional drugs that are administered in an outpatient hospital setting. To meet the requirements, outpatient hospital providers must order the medications listed in the chart from the indicated specialty pharmacies.

At this time, these requirements apply to UnitedHealthcare commercial plans, but do **not** apply to UnitedHealthcare West, UMR, Student Resources, UnitedHealthOne Golden Rule, and Sierra plans. UnitedHealthcare Oxford commercial plans are subject to a separate specialty pharmacy requirement, which can be viewed at [UHCprovider.com/policies](https://UHCprovider.com/policies) > Protocols > [Specialty Pharmacy Protocol for Certain Specialty Medications Administered in an Outpatient Hospital Setting for UnitedHealthcare Oxford Commercial Members](#).

The following states/territories are excluded from the expanded requirements. All other states are included.

- Alaska, Hawaii, Kentucky, Maryland, Puerto Rico, Rhode Island, Utah and U.S. Virgin Islands
