Instructions for Use

This Excluded Medications List with Preferred Alternatives list provides the listing of certain medical benefit medications that are healthcare provider administered, that have been deemed Therapeutically Equivalent by the UnitedHealthcare Pharmacy and Therapeutics (P&T) Committee. Therapeutic Equivalence is defined as having essentially the same efficacy and adverse effect profile to another covered medication/product.

The Excluded Medications List with Preferred Alternatives list applies to: UnitedHealthcare Commercial plan members, including All Savers and affiliate plans such as UnitedHealthcare of the Mid-Atlantic, UnitedHealthcare Oxford, Neighborhood Health Partnership and UnitedHealthcare of the River Valley.

This list is supported by the applicable Medical Benefit Drug Policy titled [Medical Benefit Therapeutic Equivalent Medications – Excluded Drugs](#).

When determining whether Medical Benefit Drug Exclusions applies to the individual member, the member specific benefit plan document must be referenced. The terms of the member specific benefit plan document [e.g., Certificate of Coverage (COC), Schedule of Benefits (SOB), and/or Summary Plan Description (SPD)] may differ greatly from the standard benefit plan upon which this Medical Benefit Drug Policy is based. In the event of a conflict, the member specific benefit plan document supersedes the applicable Medical Benefit Drug Policy and List. All reviewers must first identify member eligibility, any federal or state regulatory requirements, and the member specific benefit plan coverage prior to use of this Medical Benefit Drug Policy. Other Policies and Coverage Determination Guidelines may apply. UnitedHealthcare reserves the right, in its sole discretion, to modify its Policies and Guidelines as necessary.

Benefit Considerations

UnitedHealthcare benefit documents define therapeutically equivalent as when medications/products have essentially the same efficacy and adverse effect profile. This determination is made by the UnitedHealthcare P&T Committee and is not intended to imply therapeutic equivalence as defined by the FDA Orange Book. The medications may be excluded from coverage while the medications are listed on this document or will be reviewed against available clinical evidence, which includes applicable Medical Benefit Drug Policies, if required by law.

Medication List

Excluded Medication	HCPCS Code(s)	Must Try All Unless Noted Otherwise
Asceniv™	J1554	Bivigam®, Flebogamma® DIF, Gammagard® Liquid, Gammagard® S/D, Gammaked™, Gammaplex®, Gamunex®-C, Hizentra®, HyQvia®, Octagam®, Privigen®, Xembify®
Beovu®	J0179	Avastin®, Cimerli™, Eylea®, Lucentis®, Vabysmo™
